

Did General Electric buy Alstom Power?

General Electric (NYSE:GE) on Monday announced the completion of its \$10.6 billion acquisition of Alstom Power, which joins GE Power & Water to form GE Power.

Will GE Power & Water merge with Alstom Power?

The firm has announced that, following the completion of the acquisition, GE Power & Water will combine with Alstom Power to form GE Power. Integration of Alstom power unit's technology and geography and GE's power generation technologies, services and specialisation is expected to boost the global energy utility sector.

Who is Alstom & GE Power?

Alstom has also successfully delivered India's first 800-kV High Voltage Direct Current (HVDC) power transformer for the Champa-Kurukshetra project. GE Power's six businesses and leadership are as follows: Water & Process Technologies, headquartered in Trevose, Pennsylvania and led by Heiner Markhoff.

Why should GE choose Alstom Power?

By combining the strongest attributes of GE's power generation technologies, services and expertise with Alstom Power's technology and geography, the global utility sector will benefit from a world-class supplier of total power plant and life cycle solutions that can support equipment from multiple suppliers.

Does GE own Alstom?

PARIS, FRANCE - November 2, 2015 - GE [NYSE:GE] announced today that it has completed the acquisition of Alstom's power and grid businesses. The completion of the transaction follows the regulatory approval of the deal in over 20 countries and regions including the EU, U.S., China, India, Japan and Brazil.

What happened to GE & Alstom?

In 2014, GE and Alstom reached a deal for the sale of Alstom's power and grid businesses for about \$13.6 billion. Ultimately, approval from the EU required Alstom sell its gas turbine business to another European company, therefore changes in the deal structure saw the transaction close for about \$10.6 billion.
