

What is IEA's energy sector review of Tajikistan?

This International Energy Agency (IEA) energy sector review of Tajikistan was conducted under the auspices of the EU4Energy programme, which is being implemented by the IEA and the European Union, along with the Energy Community Secretariat and the Energy Charter Secretariat.

Why should Tajikistan invest in hydropower?

Tajikistan's geographic proximity to some of the world's fastest-growing energy markets means that investing in developing its hydropower potential can contribute to regional energy security and the clean energy transition, in addition to addressing Tajikistan's high vulnerability to climate change and natural disasters.

Is Tajikistan moving its energy sector towards more reliability?

With an aging electricity supply that relies almost entirely on one source of power generation, hydropower, Tajikistan has a uniquely unstable power supply that has caused energy shortages and rolling blackouts for decades. Now, Tajikistan appears to be moving its energy sector towards greater reliability and sustainability.

Is biomass a source of electricity in Tajikistan?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Tajikistan: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.

Does Saudi Arabia invest in Tajik energy?

Saudi Arabia is also investing more in Tajik energy. Riyadh has invested \$100 million in the ongoing construction of the Rogun dam and in January, Ambassador of Tajikistan to Saudi Arabia Akram Karimi met with the Saudi Secretary General of the Public Investment Fund to discuss future plans for Saudi involvement in Tajik green energy.

Will Tajikistan's energy production grow by 2040?

Alongside mass growth in Tajikistan's production of green hydrogen, Juma stated that Dushanbe plans for 10% of Tajikistan's energy production by 2040 to come from other renewable sources such as wind and solar.

Murghab District, VMKB, August 16, 2023 - USAID is collaborating with Pamir Energy Company (PE) to provide sustainable energy to the country's remote regions while also helping the Government of Tajikistan to diversify its renewable energy (RE) generation capacity.
