

What is the Virgin Islands Energy Office?

The Virgin Islands Energy Office (VIEO) is focused on promoting sustainable energy policies in the Virgin Islands through clean energy production and distribution, energy efficiency, transportation, and energy consumption. It achieves this through outreach, financial incentives, training, and technical assistance.

Why should the US Virgin Islands own solar assets?

The US Virgin Islands should invest in solar assets for enhanced portfolio diversification and risk mitigation. WAPA ownership guarantees coverage by WAPA and FEMA during natural disasters, eliminating uncertainties (1. Enhanced Portfolio Diversity: WAPA diversifies its energy portfolio, ensuring a more resilient and sustainable future).

Will St John be the first state to be fully powered by solar?

St. John is poised to be the first state or territory to be fully powered by solar energy. The government expresses unwavering confidence in WAPA's ability to maintain these assets and extends heartfelt gratitude to VIElectron and Honeywell for their transformative contributions.

PV Tech has been running PV ModuleTech Conferences since 2017. PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModuleTech conference dedicated to the U.S. utility scale solar sector.

V.I. Energy Office taking applications this week for low-interest loans so homeowners can install solar power and battery storage systems. U.S. VIRGIN ISLANDS -- As part of his commitment to transitioning the U.S. Virgin Islands to renewable energy sources, Governor Albert Bryan Jr. and the Virgin Islands Energy Office (VIEO) will begin taking applications Wednesday, September ...

The solar-plus-storage system is expected to fulfill 30% of the islands' energy consumption needs. According to the Department of Energy (DOE), the U.S. Virgin Islands have heavily relied on fossil fuels to generate ...
