

What is the barrier to solar panels installation in Bahrain?

The results of the study did not identify a specific item perceived as the barrier to solar panels installation in Bahrain. This is likely due to the relatively new nature of solar panel installation in Bahrain and the participants' lack of clarity on the specifics involved.

Is Bahrain's first solar panel company the start of a sea change?

This is good news for Solar One, Bahrain's first solar panels company. Since its founding in 2017, the startup boasts of contributing over two megawatts of solar to the country's energy mix -- enough to power around 380 US homes. It's a drop in the ocean, but it hopefully marks the beginning of a sea change.

Is Bahrain transitioning to solar energy projects?

After the establishment of the Sustainable Energy Unit (SEU) in Bahrain in 2014, a radical transition toward launching solar energy projects can clearly be observed. The SEU was established in collaboration between the national government and the United Nations Development Program (UNDP).
