

What is BYD battery-box premium HVS?

The BYD Battery-Box Premium HVS is composed of HVS battery modules that are connected in series. Ability to scale by adding HVS modules or parallel HVS stacks later. Additionally, direct parallel connection of up to 3 identical Battery-Box Premium HVS allows a maximum capacity of 38.4 kWh.

How many kWh can a battery-box premium HVS charge?

Ability to scale by adding HVS modules or parallel HVS stacks later. Additionally, direct parallel connection of up to 3 identical Battery-Box Premium HVS allows a maximum capacity of 38.4 kWh. DC Usable Energy, Test conditions: 100% DOD, 0.2C charge & discharge at +25 °C.

What is a battery-box premium HVS?

The Battery-Box Premium HVS is a battery module that has higher storage capacities than its predecessor. The further development of cell technology has reduced the system weight by almost 30%. The construction depth was also reduced by 8 cm. This means that less floor space is required. At the same time, the new devices have a leaner look.

BATTERY BOX PREMIUM HVS A Battery-Box Premium HVS is composed of 2 to 5 HVS battery modules connected in series to achieve a usable capacity of 5.1 to 12.8 kWh. In addition, there is direct parallel switching of up to 3 identical ...
