

Who is 2G energy?

Your Cogeneration Company... ...for a better Future... 2G Energy AG is an internationally leading manufacturer of combined and heat and power plants(CHP) for the decentralised provision of power and heat on the basis of gas motors driven by natural gas,biomethane,biogas,sewage gas,landfill gas or hydrogen.

Why should you choose 2G combined heat & power?

Throughout the world,our innovative energy solutions reliably assist you in reaching your goals. Here at 2G,we provide a wide range of highly efficient,eco sustainable Combined Heat and Power systems. CHP generates electricity and heat to save you money on your energy bills.

What is a 2G combined heat & power cogeneration (CHP) system?

We're available to answer your questions and provide a quote for your project. 2G Combined Heat and Power Cogeneration CHP systems are a modular,all-in-one solution for your facility. Their connection ready design allows fast and cost-effective installation with no need for upfront engineering.

Where is 2G made?

In addition to its headquarters in Heek,in the Münsterland region of Germany,with development and production,2G also has another production site in the USA. 2G is also represented in several European countries through its own subsidiaries. Since it was founded in 1995,2G has commissioned more than 5,000 plants worldwide.

What distinguishes 2G as a technological partner?

2G is your companion on the journey towards an ecologically and economically sustainable future. Throughout the world, our innovative energy solutions reliably assist you in reaching your goals.

Who is Prodeval & 2G energy?

Aspiring to further expand the efficient production of biomethane throughout the world, the French company Prodeval and 2G Energy... 16 stops on a 380 km journey from Münster, across the Westmünsterland region and the Ruhr valley, to Düsseldorf were chosen by 50...

Company profile: 2G Energy AG is one of the leading international manufacturers of combined heat and power plants (CHP) for the decentralized generation and supply of electricity and heat using CHP technology.

Products & Services:

Die 2G Energy AG ist ein international führender Hersteller von Blockheizkraftwerken (BHKW) zur dezentralen Bereitstellung von Strom und Wärme auf der Basis von mit Erdgas, Biomethan, Biogas, Klärgas, Deponiegas oder Wasserstoff betriebenen Gasmotoren.
