

Who pays for solar energy in Bermuda?

The Bermuda Electric Light Company Ltd (Belco) has been ordered to pay for all solar energy put into its system by those with solar panels. Those who have been putting electricity into the energy grid without being reimbursed will receive backdated payments.

How much power do solar panels have in Bermuda?

The power of solar panels in Bermuda has increased from about 225 watts in 2012 to 330 watts today. Mr. Duffy estimates this is a 50% increase in power in the same footprint and a significant cost reduction.

How can solar panels be used in Bermuda?

Deploy solar panels in discrete locations to meet Bermuda Government and satisfy listed building planning regulations. Optimize available ground space and create economies of scale while effectively addressing aesthetic considerations. Construct a dedicated facility designed for solar installation that doubles as a shade provider or carport.

What is a Bermuda solar pump?

Bermuda Solar Pumps are pumps powered by solar energy. With no running costs, you can enjoy the view with peace of mind.

Is Bermuda a suitable location for solar energy?

Bermuda is a suitable location for solar energy in several ways. Approximately 10,000 rooftops in Bermuda (out of a total of about 36,000 rooftops) are good candidates for rooftop solar because they face south and are not obstructed by trees or other buildings.

Is solar PV a mature generation technology in Bermuda?

According to the SEA, solar PV in Bermuda, including commercial installations, accounts for only around 3 per cent to 4 per cent of the total peak demand. By no means can it be regarded as a mature generation technology in Bermuda, representing a significant portion of the total electricity demand.
