What is a SolarHome 620+?

Turn any off-grid structure into an electrified home with a kit that packs down to the size of a shoebox. Perfect for cabins, sheds, vans, and emergency kits. BioLite's first crossover product, the SolarHome 620+ is currently in use in millions of homes across sub-Saharan Africa, delivering reliable daily energy to off-grid families.

Can the SolarHome 620+ be used in cold weather?

The SolarHome 620+ is a crossover product, and it was originally designed for daily use in regions of sub-Saharan Africa where average temperatures are always above freezing. If you plan to use your SolarHome 620+ in colder weather, ensure the Control Box is located indoors in a warm/temperature regulated environment.

The improved BioLite SolarHome 625 brings modern lighting, charging, and entertainment to the off-grid home. Featuring 25% more run time via improved LED efficiency, the system's three hanging lights provide overhead multi-room lighting, each with their own control switch - and one with an included motion-activated sensor.

The SolarHome 620 brings modern lighting, energy, and entertainment to transform any structure into an off-grid home. The easy-to-install solar panel captures daily sun to charge up a central control box which powers 3 hanging lights, USB charge-out, and an MP3/FM radio system.
