

What is the energy supply of Brunei Darussalam?

In 2015, the total primary energy supply (TPES) of the country for both energy sources was 3.26 million tons of oil equivalent (Mtoe) in total, with 3.07 Mtoe or 94.3% from natural gas (Table 3.1). Brunei Darussalam has 922 MW of installed capacity in power generation of public utilities, including a solar photovoltaic (PV) at 1.2 MW.

Will Brunei cover 10% of its electricity consumption by 2035?

According to Brunei Energy White Paper, the country is planning to cover 10% (954 GWh) of its electricity consumption from renewable energy by the year of 2035. The document sets the ground for the renewable energy policy.

Why is Brunei focusing on developing downstream energy industries?

The country is focusing on developing downstream energy industries by maximising economic spin-off potential from upstream production and assets. Brunei Darussalam aims to reduce its energy intensity by 45% in 2035 from the baseline year of 2005, in line with its regional commitment to the Asia-Pacific Economic Cooperation.

What is Brunei aiming to achieve in 2035?

The target is to increase the share of Renewable energy in the total power generation mix by 10% or 954,000 MWh in 2035 and at the same time to reduce energy intensity by 45% in line with Brunei's commitment to Asia-Pacific Economic Cooperation (APEC). with total of 3,420 ktoe. The majority of natural gas is exported.

How much energy does Brunei need?

In 2005, Brunei's total energy needs was 2,435 KTOE. As of 2022, approximately 127,000 barrels of oil and 243,000 barrels of natural gas equivalent are produced daily by Brunei's oil and gas fields. A refinery used for the oil field in Seria. In 2005, oil supplied 24.4% of Brunei's total energy needs.

Why is Brunei Darussalam independent from energy imports?

The country is independent from energy import, due to its vast domestically available oil and gas reserves. Brunei Darussalam has the ninth largest Liquefied Natural Gas (LNG) reserve in the world as well as the fourth largest oil producer in South East Asia region.

State Climate Action. Brunei Darussalam will be the host of the ASEAN Centre for Climate Change, endorsed by other AMS during 17th ASEAN Ministerial Meeting on the Environment held in August 2023. Other than that, their programmes on climate action are mostly arranged on the Brunei Darussalam National Climate Change Policy (BDNCCP), outlining strategies, action ...
