

What is a Bulgarian energy storage grant?

Following a three-month delay, the Ministry of Energy of Bulgaria combined five planned procedures for grants for energy storage facilities into three and launched calls for two of them. The aim is to support the buildout of renewable electricity plants, with which the subsidized systems would be integrated into hybrid power plants.

How many project proposals were submitted in Bulgaria's energy storage procurement procedure?

A total of 151 project proposals were submitted in Bulgaria's standalone energy storage procurement procedure named RESTORE, which is seeking to support the construction and commissioning of renewable energy storage facilities with a cumulative minimum usable capacity of 3 GWh.

What is the largest battery energy storage system in Bulgaria?

The system is the largest in Bulgaria. Image: Renalfa IPP. A 25MW/55MWh battery energy storage system (BESS) has been commissioned in Bulgaria, Eastern Europe, by operator Renalfa IPP, using technology provided by Chinese firms Hithium and Kehua.

What are Bulgaria's energy storage subsidies?

The subsidies are for battery systems required to be installed together with renewable electricity plants of at least 200 kW in capacity. Following a three-month delay, the Ministry of Energy of Bulgaria combined five planned procedures for grants for energy storage facilities into three and launched calls for two of them.

Why do we need energy storage solutions in Bulgaria?

Establish a reliable energy system with greater share of intermittent generation. In the context of Bulgaria's energy landscape, energy storage solutions present a diverse array of benefits to various stakeholders stemming from its unique ability to time-shift energy and rapidly respond when called upon. The applic

How much money has Bulgaria received for energy projects?

The Ministry of Energy of Bulgaria has received 151 project proposals worth nearly BGN 5 billion (\$2.7 billion), more than four times the available funding.

BGH2A: Building Trust and Partnerships for a Climate-Neutral Bulgaria by 2050 | The Bulgarian Hydrogen, Fuel Cell, and Energy Storage Association (BGH2A) is a non-profit organization dedicated to promoting hydrogen and fuel cell ...

The project is the first utility-scale Battery Energy Storage System in Bulgaria as well as one of the first of such scale in Eastern Europe. The 25MW/55 MWh BESS supports a 33 MWp PV plant equipped with a ...

Hithium has launched a 55 megawatt hours (MWh) battery energy storage system (BESS) project in Razlog, southwestern Bulgaria. The project, the largest in Eastern Europe, has been realised by Solarpro, a company ...

Bulgaria's Ministry of Energy has launched two tenders to add 1,425MW of renewable power generation to the grid and 350MW of battery energy storage system (BESS) projects. The ministry said the main objective ...

On 21 August 2024, the Bulgarian Ministry of Energy opened a tender procedure for National infrastructure for storage of renewable energy (RESTORE) for granting stand-alone battery energy storage system (BESS) tender funded ...

The specific topic of the webinar was related to battery energy storage systems in Bulgaria. Around 40 energy experts representing the energy ministries, transmission system operators, distribution system operators, regulatory authorities, and energy companies from all the Western Balkan countries participated at the event.

The Bulgarian authorities awarded BGN 526 million (\$284 million) to 397 renewable energy projects in the country's latest procurement exercise.

This is a cardinal change in approach that turns the current plans for the development of the Bulgarian energy sector on their head. ... The authority would need to provide another 270 mln. lev in funding to complete the project. ...

The Bulgarian Ministry of Energy has launched two renewables-plus-storage tenders to the tune of BGN 535 million (\$298 million), accepting bids from companies in all sectors except agriculture ...

Among them is the development of pumped-storage hydropower plants, which could become the largest energy storage batteries in the region," said interim Energy Minister, Vladimir Malinov. "The implementation of such projects will enhance our energy security, improve Bulgaria's energy infrastructure and achieve our decarbonization goals.

Under two calls in Bulgaria, developers of 249 projects will receive EUR 268 million in total state aid. The programs are for renewable electricity plants with energy storage units. The Bulgarian Ministry of Energy said it completed two funding rounds under the National Recovery and Resilience Plan.

• Location: Razlog, Bulgaria . The project is co-located to a 33 MWp PV plant, this hybrid solar plus storage project is seamlessly integrated into the transmission system operator (TSO) grid. Kehua, as a world-leading energy storage solutions provider, supplied the 1500Vdc PCS and MV transformer integrated solution.

Energy minister Rossen Hristov has set out an energy strategy for 2023 to 2053 for Bulgaria, which includes plans for two new reactors at Kozloduy and two at Belene. ... and the introduction of 600MW of battery storage by 2030 and ...

However, the state-owned hydropower plant operator, part of Bulgarian Energy Holding, is yet to fully cover financing. The pilot project for adding battery energy storage to the Vacha 1 hydropower plant, reconstructed in 2023, is planned for completion by the end of the year, the article reads. The 14 MW facility was built in 1933.

Bulgaria launched a project to almost double its gas storage with a BGN 298 million (USD 165 million) deal between grid operator Bulgartransgaz and a Bulgarian-led consortium. Capacity at the Chiren underground gas ...

Following a three-month delay, the Ministry of Energy of Bulgaria combined five planned procedures for grants for energy storage facilities into three and launched calls for two of them. The aim is to support the buildout of ...

Billed as the largest operating battery energy storage system in Bulgaria to date, the 25 MW/55 MWh facility, developed by Austria's Renalfa IPP, came online at the start of the month.

The Bulgaria's Ministry of Energy began accepting applications yesterday (21 August) in tenders for 3,000MWh of energy storage capacity. Called the National infrastructure for the storage of electricity from renewable ...

The Razlog BESS project sets a precedent for the future of the renewable energy sector in the region and highlights the key role that Kehua's top-of-the-line PCS innovations and Solarpro's ...

Bulgarian state-owned power utility NEK intends to add a 10 MWh battery energy storage system (BESS) by the end of the year to its recently reconstructed Vacha 1 ...

The funding will be made available and disbursed to the selected candidates following the successful implementation of the storage systems by March 2026. The energy storage capacities incubated under the scheme will be connected to Bulgaria's national network by its electricity system operator.

Bulgaria on Wednesday launched a long-delayed tender for at least 3,000 MWh of new energy storage capacity as part of its efforts to increase the share of renewable energy sources, particularly wind and solar, in the country's energy mix. ... (USD 683m/EUR 613m), the Bulgarian ministry of energy announced in a press statement on Tuesday ...

The procurement procedure, named RESTORE, will offer a total of BGN 1.2 billion (\$657 million) for the construction and commissioning of a national infrastructure of renewable energy storage...

A 25MW/55MWh project from IPP Renalfa and BESS supplier Hithium, the largest in Bulgaria. Image: Renalfa IPP. The deadline has now passed for Bulgaria's EU-backed support scheme for standalone energy ...

Energy storage in Bulgaria Market development and existing BESS projects. 18.12.2024 energypedia consult 3 ... o Have a technical advisor with previous experience in either a combined project for production and storage or standalone storage project with capacity of ...

Hithium will supply 16 energy storage containers with a 3,44 MWh capacity, based on the company's 280 Ah cells, which claim to have an extra-long expected lifespan. They also feature a wide operating temperature range, thus ...

Solarpro, a leading technological provider of solutions for the generation and storage of energy in Europe, part of Renalfa Solarpro Group GmbH, was awarded the Best EU Project Under 100MWaward at the ...

Bulgaria earmarked EUR 589 million for the endeavor, funded under the European Union's Recovery and Resilience Facility. The Ministry of Energy in Sofia plans to launch a tender on September 2 for standalone ...

The largest grid-scale BESS projects online that Energy-Storage.news has reported on are a 55MWh project by independent power producer (IPP) Renalfa and a 17.8MWh commissioned by China-based ...

Vienna-based developer Renalfa IPP has started commercial operation at its 25 MW/55 MWh battery energy storage system (BESS) located in the city of Razlog, southwestern Bulgaria. The system,...

The Bulgarian Energy Ministry opened a tender procedure for supply of energy storage on August 21, 2024. The procedure aims to provide funding for construction and implementation of a 3,000 MWh stand-alone ...

The grant scheme, funded under the National Recovery and Resilience Plan, provides a little over 1.15 billion leva to support the construction and commissioning of renewable energy storage facilities with at least 3,000 ...
