

Cairo north station to energy storage building

Who owns Cairo North combined cycle power station?

Delivery and commencement of operations is scheduled for the second half of 2018. Cairo North Combined Cycle Power Station is located around 20 km north of Cairo, and has been operated by CEPC since 2005. It currently uses gas turbines provided by Mitsubishi Heavy Industries, Ltd. (MHI), as well as steam turbines provided by Hitachi, Ltd.

Who supplied electricity to the Cairo North combined cycle power plant?

GE Power supplied electric generator for the Cairo North Combined Cycle Power Plant (Cairo North Combined Cycle Power Plant Block II). Siemens Heat Transfer Technology supplied steam boiler for the Cairo North Combined Cycle Power Plant (Cairo North Combined Cycle Power Plant Block I).

How many gas turbines are in Cairo North combined cycle power plant?

The phase consists of 2 gas turbines with 250MW nameplate capacity. Cairo North Combined Cycle Power Plant (Cairo North Combined Cycle Power Plant Block I) is equipped with Mitsubishi Power TCDF-40 steam turbine. The phase consists of 1 steam turbine with 250MW nameplate capacity.

What type of steam turbine is used in Cairo North combined cycle power plant?

Cairo North Combined Cycle Power Plant (Cairo North Combined Cycle Power Plant Block II) is equipped with GE Power STF30C steam turbine. The phase consists of 1 steam turbine with 250MW nameplate capacity.

What is a large-scale energy storage project?

The project aims at providing the scientific, technological and policy basis required for the development and implementation of large-scale energy storage in Egypt, enabling increased penetration of renewable energy sources in the Egyptian energy system.

Cairo solar energy storage battery. CAIRO - 3 December 2023: Norway's Scatec and the Egyptian Electricity Holding Company (EEHC) have signed a cooperation agreement for the first a solar and battery storage project in Egypt. The project envisions the development of a 1-gigawatt (GW) solar plant and a 200 megawatt-hour (MWh) battery storage ...
