

What battery does ecoflow use?

EcoFlow's portable power stations are powered by LiFePO₄ batteries. LiFePO₄ is an abbreviation of lithium iron phosphate battery chemistry, and it's also known as LFP. LFP rechargeable batteries are a newer subset of lithium-ion (Li-ion) batteries that are being rapidly adopted thanks to their long lifespan, rapid charging, safety, and efficiency.

How long do ecoflow batteries last?

Most of EcoFlow's portable power stations last for 3,500 cycles (full discharge/recharge) before diminishing to 80% storage capacity and 6,500 cycles before reducing to 50%. Even with regular use, EcoFlow's LiFePO₄ batteries will last 10+ years without any noticeable decline in performance.

How do I charge the ecoflow 12V 100Ah lithium battery?

Charge the EcoFlow 12V 100Ah Lithium Battery using solar, generator, or from the grid, so no matter where you are, there's an option. Fully charge in as fast as 2 hours, 6 times quicker than lead-acid batteries. EcoFlow is sold in more than 100 countries and regions, with a user base of 3,000,000+ worldwide.

Are ecoflow batteries compatible with solar charging?

Let's dive into some factors to consider below: EcoFlow batteries are compatible with solar charging, so you can enjoy power anywhere you can access sunlight. Solar panels can be rigid, portable, or flexible. Choose which one is best for you.

Why should you choose ecoflow portable power stations?

EcoFlow portable power stations utilise LiFePO₄ battery chemistry for excellent performance. LFP is quickly becoming the leading lithium-ion battery technology. It offers many benefits, including: Low self-discharge, and more. One of the most significant considerations when choosing the right portable power station for your needs is AC output.

Who is ecoflow?

Since its founding in 2017, EcoFlow has provided peace-of-mind power to customers in over 85 markets through its DELTA and RIVER product lines of portable power stations and eco-friendly accessories. At EcoFlow, we've got a wide range of portable power stations to suit every need - from ultra-portable to mega-powerful.
