

How can Djibouti achieve its energy goals?

Djibouti's substantial potential for geothermal electricity generation, along with its rising capacity to produce energy from wind and solar power plants, should help the country reach its goals in coming years. In addition to the growing need for generation capacity, the expansion of renewable energy is key for Djibouti to diversify its economy.

How many people in Djibouti have access to electricity?

In Djibouti, 42% of the population has access to electricity. The government's Vision 2035 establishes goals to promote renewable energy source use for electricity generation and to pursue fuel-switching measures from fossil to renewables.

What is the second Djibouti-Ethiopia power system interconnection project?

The Second Djibouti-Ethiopia Power System Interconnection Project is helping Djibouti increase its reliance on renewable energy. This project, alongside the Sustainable Electrification Program, supports the country's goal of achieving 100% renewable energy by 2035.

How much electricity does Djibouti produce in 2021?

Djibouti produced 654,062 MWh of electricity in 2021, according to figures from the Central Bank of Djibouti, representing a 4.3% increase relative to 2020. Improving domestic energy production will require the government to direct private investment towards electricity generation.

Will Djibouti become the first African country to meet 100% electricity demand?

The authorities have announced plans to transform Djibouti into the first African country to fulfil 100% of its electricity demand from clean energy sources by the close of the plan in 2035. The Ministry of Energy and Natural Resources formulates policies for the sector and regulates the electricity market.

Does Djibouti have solar energy?

Djibouti has significant solar energy potential, with an estimated average daily global horizontal irradiance of 4.5 to 7.3 KWh per sq metre across its territory. The construction of the first large-scale solar generation project began in November 2022 in the Gran Bara Desert, which is located in the country's southern region.
