

Who is Dragonfly energy?

Dragonfly Energy has advanced the outlook of North American lithium battery manufacturing and shaped the future of clean, safe, reliable energy storage. Our domestically designed and assembled LiFePO₄ battery packs go beyond long-lasting power and durability--they're built with a commitment to innovation in our American battery factory.

Is Dragonfly Energy's patented dry electrode battery manufacturing process sustainable?

Results of a Cost & Sustainability Assessment, conducted by Sphere Energy, concludes Dragonfly Energy's patented dry electrode battery manufacturing process is easily scalable, more cost-effective, and more sustainable than the state-of-the-art technology currently available in the market.

Is Dragonfly Energy a publicly traded company?

Dragonfly Energy, a Lithium-Ion battery manufacturer, has entered into a definitive agreement for a business combination with Chardan NexTech Acquisition 2 Corp (CNTQ), a special purpose acquisition company. As a result of this deal, Dragonfly Energy will become a publicly-traded company on the NASDAQ.

How does dragonfly energy work?

The dry electrode battery manufacturing process Dragonfly Energy employs uses a patented spray coating technology to adhere the anode and cathode electrodes, eliminating the need for large, energy-intensive equipment such as slurry coaters, conveyor dryers, and NMP processing equipment.

What makes dragonfly energy a chemistry agnostic?

Dragonfly Energy's battery manufacturing process is chemistry agnostic, enabling the Company to provide batteries across a variety of chemistries and provide cost-effective battery solutions for electric vehicles, consumer electronics, energy storage, and other markets.

Why should I subscribe to Dragonfly energy newsletter?

Access insightful resources on energy storage systems. Real-world applications powered by our innovative solutions. Stay informed with the latest in industry and technical updates. Dragonfly Energy is excited to announce two new 12V lithium batteries: The DF8D and the DFGC3. Both products are 12V, 270 Ah, deep cycle lithium batteries that contain our safe and reliable lithium iron phosphate ...

RENO, Nev., Nov. 19, 2024 (GLOBE NEWSWIRE) - Dragonfly Energy Holdings Corp. ("Dragonfly Energy" or the "Company") (Nasdaq: DFLI), maker of Battle Born Batteries ® and an industry leader in energy storage, today, announced today that it will effect a 1-for-9 reverse stock split of its outstanding common stock. This will be effective for trading purposes as of the ...

Dragonfly Energy's LiFePO4 battery packs are engineered to offer unparalleled power and versatility to suit the diverse needs of various deep cycle applications. They can be wired in series for 12V, 24V, 36V, and 48V systems, or wired in parallel for expanded power needs. Designed as drop-in replacements for standard lead-acid battery form ...

In March 2019, Dragonfly Asia-Pacific Taiwan Branch took on the distribution of Fossil Group's portfolio of brands and products and re-established dealer relationships for Fossil Group brands through a network of more than 100 active doors. It also optimized the existing retail and concession footprint and took control of the online business ...

Dragonfly Energy is an official sponsor of the 11th annual Chemistry of the Cocktail, The Discovery's largest annual fundraising event, and have worked closely with the organization to outfit their School & Community Outreach Van with a lithium power system. Reliable LiFePO4 energy helps bring educational exhibits to children outside of the ...

Luisa Ingargiola joins Dr. Denis Phares for this episode of the Li-MITLESS ENERGY Podcast to discuss Dragonfly Energy's journey to the public market. As the Lead Independent Director of the board at Dragonfly Energy, Luisa has played an integral role in advising the company's leadership and giving them the tools to go public. With her ...

1 · About Dragonfly Energy Dragonfly Energy Holdings Corp. (Nasdaq: DFLI) is a comprehensive lithium battery technology company, specializing in cell manufacturing, battery ...

RENO, NEVADA (November 25, 2024) - Dragonfly Energy Holdings Corp. (Nasdaq: DFLI) ("Dragonfly Energy" or the "Company"), an industry leader in energy storage Read More » Dragonfly Energy Publishes 2023/2024 ESG Report Highlighting Commitment to a Sustainable Future and Diversity in its U.S. Workforce

Dragonfly Energy managers discuss battery data in the RD lab. Results of a Cost Sustainability Assessment,

conducted by Sphere Energy, concludes Dragonfly Energy's patented dry electrode battery manufacturing process is easily scalable, more cost-effective, and more sustainable than the state-of-the-art technology currently available in the market.

Dragonfly Energy's lithium battery factory in Reno, Nevada is a hub of American innovation. The facility leverages Dragonfly Energy's own patented technologies to develop diverse lithium cell chemistries and advanced pack design, pushing ...

RENO, Nev., May 08, 2024 (GLOBE NEWSWIRE) - Dragonfly Energy Holdings Corp . (Nasdaq: DFLI) ("Dragonfly Energy" or the "Company"), an industry leader in green energy storage and maker of Battle Born Batteries™, received the Spirit of Nevada award at the annual Nevada Business Awards presented by Nevada Business magazine. The Nevada Business Awards ...

Results of a Cost Sustainability Assessment, conducted by Sphere Energy, concludes Dragonfly Energy's patented dry electrode battery manufacturing process is easily scalable, more cost-effective, and more ...

Innovative Instant ROI program allows fleets to achieve substantial and immediate savings from the deployment of Battle Born All-Electric Auxiliary Power Unit (APU) NEW ORLEANS, March 04, 2024 (GLOBE NEWSWIRE) -- Velociti Inc., a global provider of technology deployment, maintenance and integration solutions, and Dragonfly Energy Holdings ...

Dragonfly Energy is excited to announce two new 12V lithium batteries: The DF8D and the DFGC3. Both products are 12V, 270 Ah, deep cycle lithium batteries that contain our safe and reliable lithium iron phosphate (LiFePO₄) chemistry. The DF8D and DFGC3 come in different physical dimensions, allowing outdoor enthusiasts the flexibility to store ...

Dragonfly Energy's lithium battery factory in Reno, Nevada is a hub of American innovation. The facility leverages Dragonfly Energy's own patented technologies to develop diverse lithium cell chemistries and advanced pack design, pushing the boundaries of energy storage solutions.

2018; Dragonfly Energy is revolutionizing cell manufacturing by leveraging cutting-edge equipment and data-driven insights to domestically produce high-performance lithium battery cells. Our unique dry electrode process is ...

Committed to Sustainable Energy Solutions Dragonfly Energy champions sustainability in cell manufacturing. Their innovative dry electrode process boasts a reduced carbon footprint, eliminates dependence on harmful solvents, and facilitates the production of PFAS-free electrodes, all while proving the ability to incorporate recycled materials for a more eco-friendly ...

The assessment highlights significant cost and sustainability improvements made by Dragonfly Energy's patented dry electrode battery manufacturing process when compared to the state-of-the-art...

At the forefront of domestic lithium battery cell production, Dragonfly Energy's patented dry electrode manufacturing process can deliver chemistry-agnostic power solutions for a broad spectrum of applications, ...

Wade began contract work with Dragonfly Energy in 2018 prior to fully joining the company as a Director of Outside Sales and Business Development in 2021, and now serving as Chief Revenue Officer of the company. During his time with Dragonfly Energy, Seaburg has helped grow the company's OEM business and relationships exponentially, including ...

RENO, NEVADA (May 9, 2024) - Dragonfly Energy Holdings Corp. (Nasdaq: DFLI) ("Dragonfly Energy" or the "Company"), an industry leader in green energy storage, has made a significant breakthrough in battery manufacturing with the successful production of PFAS-free electrodes in lithium battery cells. As concerns mount over PFAS (per ...

RENO, NEVADA (May 16, 2022) -- Dragonfly Energy Corp. ("Dragonfly" or the "Company"), a leader in energy storage and producer of deep cycle lithium-ion storage batteries, and Chardan NexTech Acquisition 2 Corp. ("CNTQ") (Nasdaq: CNTQ), a publicly traded special purpose acquisition company, today announced a definitive agreement for ...

RENO, Nev., April 15, 2024 (GLOBE NEWSWIRE) -- Dragonfly Energy Holdings Corp. ("Dragonfly Energy" or the "Company") (Nasdaq: DFLI), maker of Battle Born Batteries ® and an industry leader in energy storage, today reported its financial and operational results for the fourth quarter and full year ended December 31, 2023.

1 · Dragonfly Energy (DFLI) announced that it has secured a large purchase order for delivery of the Company's Battle Born All-Electric APUs from Stevens Transport, one of the ...

About Dragonfly Dragonfly Energy Holdings Corp. (Nasdaq: DFLI) headquartered in Reno, Nevada, is a leading supplier of deep cycle lithium-ion batteries. Dragonfly's research and development initiatives are revolutionizing the energy storage industry through innovative technologies and manufacturing processes. Today, Dragonfly's non-toxic ...

Dragonfly Energy has continued its expansion into the trucking industry, taking new orders for both its Battle Born ® All-Electric APUs and Battle Born ® Liftgate Power Systems from fleet operators since the beginning of 2024. The Company is announcing certification of its energy storage products for use in oil gas operations in North America, and identification of first ...

At the forefront of domestic lithium battery cell production, Dragonfly Energy's patented dry electrode manufacturing process can deliver chemistry-agnostic power solutions ...

RENO, Nev., Nov. 19, 2024 (GLOBE NEWSWIRE) -- Dragonfly Energy Holdings Corp. ("Dragonfly

Energy" or the "Company") (Nasdaq: DFLI), maker of Battle Born Batteries ® and an industry leader in energy storage, today, announced ...
