

Who is easun energy?

Tell us your solar energy transformation plan, we will give you perfect solution & budget estimate. EASUN Energy is a leading high-tech enterprise that established in 2012. It's a professional and vigorous new energy company which focus on supplying photovoltaic inverters and solar power storage battery, as well as solar panels.

Where is eastsun located?

Eastsun (Suzhou) New Energy Technology Co., Ltd is located in Jiangsu, China. which provides high quality solar products for global enterprises, investors, traders, installers, and end users. Eastsun as a global strategic partner of more than 80% of PV brands, can meet your needs of different brands, different types and different delivery time.

Who is eastsun?

Eastsun has been focusing on the research, production and sales service of solar products. Serving global customers in more than 80 regions and 80,000 customers, we have won a good reputation for quality. Using renewable energy to change green lifestyles for customers. One-stop purchasing service provider of solar energy.

Why is easun energy bringing green energy?

With our products, we have been bringing green energy to: Easun Energy focus on providing home solar system and energy storage solutions, including PV panels, solar inverters, batteries and accessories. Either to anti-energy-crisis, or to save family electricity cost, home solar system is getting more and more popular just like the fashion trend.

Why should you choose easun energy?

Technology makes the product more intelligent and rugged, and even more efficient to convert the sun power into electricity. With our products, we have been bringing green energy to: Easun Energy focus on providing home solar system and energy storage solutions, including PV panels, solar inverters, batteries and accessories.

Why should you choose eastsun electrical?

As an industrial power in the field of expert, Eastsun electrical has strong R & D and manufacturing capability, which makes the manufacturing cost is further reduced, thus greatly enhance the competitiveness of products. Products adopt advanced DSP digital control and industrial grade components and refined.

Thanks to our self-developed core technology in cells/BMS/system design, E-SUN TECHNOLOGY has delivered wall-mounted LiFePO₄ battery storage system to more than 100+ countries serving 400,000+ users. The data is from ...

Eastsun High Quality High Performance 51.2V 100Ah 200Ah LiFePO4 Lithium Ion Battery for Solar Energy Storage System No reviews yet Eastsun (suzhou) New Energy Technology Co., Ltd. 1 yr CN

Eastsun Energy Solutions Limited is a dynamic electrical engineering company, established as an independent company in 2013 to cater specifically for Uninterruptible Power Supply systems, Automatic Voltage Regulators, Inverters, Solar Power Solutions and Fluke Equipment. Eastsun Energy specializes in the management of electrical engineering ...

As proposed in the World Energy Transitions Outlook 2024 by the International Renewable Energy Agency, 1 to 2 megawatts (MW) of energy storage per 10 MW of renewable power capacity added can act as general reference, while the needed characteristics such as duration and specific size will depend on availability of the multiple and diverse ...
