

Is Ecodan ftc6 smart grid ready?

The new Ecodan FTC6 controller is Smart Grid ready with the additional built in quiet mode interface. Other features include an improved easy system set up through step by step installation wizard and intelligent room temperature control as standard. It also includes energy monitoring, showing consumed and produced energy.

What if I need More information about The Ecodan outdoor unit?

If you require more in depth information and system settings please contact either your installer or the Mitsubishi Electric Homeowner Helpline. (see back page) The Ecodan outdoor unit provides your home with a continuous supply of hot water via a dedicated hot water cylinder.

How many wireless controller transmitters does a Ecodan ftc5 have?

The Ecodan wireless remote controller allows up to 8 wireless controller transmittersto be used per system,giving better control of your heat pump. All Ecodan FTC5 systems come with free energy monitoring as standard. Further energy monitoring packs such as electric meter packs are also available.

How do I adjust the time on The Ecodan?

For holiday mode, hold down the suitcase button and adjust the time with the arrow buttons and press the suitcase again to confirm. The Ecodan provides water at a lower temperature than the gas or oil fired boiler you may be used to. This means that you may notice some differences between this system and ones you have used before.

Equatorial Guinea, [a] officially the Republic of Equatorial Guinea, [b] is a country on the west coast of Central Africa, with an area of 28,000 square kilometres (11,000 sq mi).Formerly the colony of Spanish Guinea, its post-independence name refers to its location near both the Equator and in the African region of Guinea.As of 2024, the country had a population of 1,795,834, [7] ...
