

The capacity auction would include contracts for energy storage projects with minimum power availability of 30 MW for the equivalent of four hours" continuous dispatch per day in the electrical system, with a maximum of one daily charge and discharge cycle, at a time defined by the National System Operator (ONS).

Further details about Brazil's largest battery storage project to date have been revealed including its integrators and equipment providers. The inauguration of the 30MW/60MWh system took place last year, on the networks of transmission system operator (TSO) ISO CTEEP, as reported by Energy-Storage.news in November.

Porto Alegre se prepara para sediar o 27º Fórum GD Sul, o maior evento de Geração Distribuída da América Latina, que ocorrerá de 26 a 28 de março de 2025 no centro de eventos FIERGS-RS. No dia 28, será realizada também a 7ª edição do Fórum Energy Storage Brasil, que abordará inovações no setor de energia sustentável.

A 30MW battery energy storage system has been inaugurated by transmission system operator (TSO) ISA CTEEP in Brazil. The TSO announced the energising of the BESS yesterday (29 November), which it said made it the first TSO to have a large-scale storage system on the country" s transmission network.

Changes to Brazil" s first capacity reserve auction of 2025 could undermine the expansion of the procurement regime to include battery energy storage systems (BESS) in the second exercise of the year, according to Markus Vlasits, ...

Solar-plus-storage hybrid systems will enter the Brazilian consumer market within two to three years, according to Júlio Bortolini, photovoltaic unit manager at Brazilian conglomerate...

Brazil" s energy storage sector must attract R47 billion (\$7 billion) in investments by 2030, according to the Brazilian Energy Storage Solutions Association (Absae). Stakeholders are in the process of creating a regulatory framework for energy storage.

ISA Cteep, a private-sector power transmission company, agreed to build the first large-scale energy storage project linked to Brazil" s National Interconnected System (SIN).

Stakeholders can provide feedback from December 12, 2024, to January 30, 2025. This initiative forms part of ANEEL" s 2025-2026 Regulatory Agenda, which seeks to ...
