

Electric water bottle with hot water storage function

What is a keplin rechargeable hot water bottle?

Experience quick and efficient warmth with the Keplin Rechargeable Hot Water Bottle. With its fast heating feature, it reaches a comforting temperature in just 8-10 minutes, providing you with soothing heat during cold days or nights. Enjoy the extended heat retention of this electric hot water bottle.

How long does a hot water bottle last?

After around 8-12 minutes your Electric Hot Water Bottle will have reached a temperature of 70-75°C, perfect for warming up your bed on a cold winter night. It will retain its heat for up to 6 hours. Also great for use as a hand warmer or as a heat pad for soothing aches such as back pain etc. Heated hand warmer pouch.

Why should you buy an electric hot water bottle?

No longer need to pour hot water repeatedly like a traditional hot water bottle Provides up to 6 hours of continuous warmth. Quick and easy to recharge with detachable power lead. Offers therapeutic benefits for pain relief and circulation. Therapeutic Benefits - Beyond providing warmth, this electric hot water bottle offers therapeutic benefits.

Are electric hot water bottles a good gift?

ELECTRIC HOT WATER BOTTLE - Warm up, relax or ease aches and pains with this electric hot water bottle, ideal for cold winter nights. It makes a great gift for someone who would benefit from heat therapy or anyone looking for a safe and easy alternative to the traditional hot water bottle.

How do I use a rechargeable hot water bottle?

With ever-increasing energy bills you can save money using this rechargeable hot water bottle as it costs significantly less than boiling a kettle and the heat retention is far superior to traditional hot water bottles which do not retain heat for more than 1 hour. Simply connect the charging cradle and plug it into the mains.

Can I use a hot water bottle while charging?

Do not use hot water bottle while charging EASY TO USE: Just plug in, no microwave, no boiling water, no refill necessary. No longer need to pour hot water repeatedly like a traditional hot water bottle Provides up to 6 hours of continuous warmth. Quick and easy to recharge with detachable power lead.
