

Does enervervenue have a master supply agreement with avid group?

FREMONT, Calif. and PERTH, Australia, Aug. 27, 2024 (GLOBE NEWSWIRE) -- EnerVenue, a company pioneering the commercial deployment of high-efficiency metal-hydrogen batteries capable of more than 30,000 cycles, today announced a Master Supply Agreement with AVID Group, an energy solutions provider serving Australia and West Africa.

What is enervervenue's partnership with avid?

The partnership with AVID is EnerVenue's first Master Supply Agreement with an Australian energy provider and extends EnerVenue's growing reach in the country.

What is enervervenue?

EnerVenue builds simple, safe, maintenance-free energy storage for the clean energy revolution - based on technology proven over decades in extreme conditions, now scaled for large renewable energy integration applications. Previously, Jorg led strategy, sales and operations for Primus Power, a disruptive long-duration energy storage provider.

Is enervervenue a good solution to the grid's storage problems?

One start-up - a California firm named EnerVenue - has hit upon a sturdy, dependable, and modestly-priced solution to the grid's storage issues. Take a listen to EnerVenue CEO, Jorg Heinemann speaking with David Hunt about the renewable energy transition and implications for battery technology on the latest Leaders in Cleantech Podcast.

Who is enervervenue's CEO?

Andrzej leads the development of EnerVenue's energy storage systems. He has 25+ years of experience designing and commercializing technology products. Prior to EnerVenue, Andrzej developed Stem's first lithium-ion stationary energy storage and power monitoring systems.

Why should you choose enervervenue's new energy storage vessels?

"Our new Energy Storage Vessels advance our solution's energy capacity, density, and power performance, and continue to add to our battery's advantages over lithium-ion systems," said Majid Keshavarz, Chief Technology Officer, EnerVenue.

EnerVenue builds simple, safe, and cost-efficient energy storage solutions for the clean energy revolution. Based on technology proven over decades under the most extreme conditions, EnerVenue batteries are refined and scaled for large renewable energy integration applications. The company is headquartered in Fremont, California.

EnerVenue's CEO, Jorg Heinemann, says: "EnerVenue is a leading provider of high-efficiency metal-hydrogen batteries for the clean energy revolution. Our batteries are designed for long-duration energy storage and are capable of more than 30,000 cycles. We are currently in the process of securing a Master Supply Agreement with AVID Group, an energy solutions provider serving Australia and West Africa. This partnership is a significant milestone for EnerVenue and will enable us to expand our reach in the Australian market. We are excited to see the potential of our technology in the clean energy revolution and look forward to working with AVID Group to bring our batteries to the market."
