Zhou et al. recently reported a closely related bat coronavirus, with 96.2% sequence similarity to the human virus. We use this bat virus as an outgroup, resulting in the root of the network being placed in a cluster of lineages which we have labeled "A." Overall, the network, as expected in an ongoing outbreak, shows ancestral viral genomes existing ...

Led by a group of leading renewable energy companies, Junagr Banner is making every effort to enhance the renewable energy industry, accelerating the construction of an industrial cluster of "wind, solar and hydrogen energy storage vehicle"; integrating energy production, equipment manufacturing, and application demonstration, and optimize the ...

Chinese President Xi Jinping and his wife Peng Liyuan hosted a welcome banquet on Thursday evening for guests who gathered in Xi'an, the historical starting point of the ancient Silk Road, to attend the milestone China-Central Asia Summit. ... Xi said China and Central Asian countries have injected positive energy into regional peace and ...

Jiangsu Province has recently unveiled a strategy to bolster the high-quality development of the new energy industry in Changzhou City, with a goal to increase the industry's output value to over one trillion yuan by 2025.

According to the World Bank, China has accounted for more than half of the world's entire energy savings since 2005.-- According to a guiding document on China's work to achieve carbon peaking and carbon neutrality goals released ...
