The growth of ESM is inextricably linked to the development of power generation in Macedonia. Though ESM was established as an independent enterprise in 2005 as ELEM, its business operations and generation capacities date as far back as the beginning of the 20th century in 1909, to the first light in Skopje.

ESM works to join the contemporary and technologically advanced countries and to become part of the European - free trade with electricity, according to the directives of EU, liberalization, ...
