

Who is Fengdong heat treatment company?

Fengdong is a company integrating heat treatment equipment manufacturing, heat treatment processing service, heat treatment after-sale service, and heat treatment consulting services as a whole. It is aimed at providing professional systematic heat treatment and surface modification solutions, and creating values for customers.

Who is Fengdong?

Fengdong has established many commercial heat treatment processing plants in Chinese major industrial concentration areas. The broad product line and the full range of services from design to after-sales enable Fengdong to provide customers with a one-stop solution.

Who is Jiangsu Fengdong thermal technology?

Jiangsu Fengdong Thermal Technology Co., Ltd. is a leading integrated provider of solution in the heat treatment industry and a world renowned manufacturer of heat treatment equipment.

What will Xixian do with Fengxi information industry park?

With the Fengxi Information Industry Park as the carrier, Xixian will develop information technologiessuch as cloud computing, Internet of Things, e-government and e-commerce, open an information sharing channel and build an information sharing center along the Silk Road Economic Belt.

Mapletree Fengdong (Xi'an) Industrial Park features three blocks of single-storey warehouses with mezzanine offices. The facility offers approximately 64,000 sqm of warehousing space with easy access to transportation networks and is in close proximity to downtown Xi'an and the Xi'an Xianyang International Airport.

Kunming Lake, Fenghe Golden Bay, Happy Valley, Qixi Park, Shijingli tourism town, Lewa city holiday resort and Fu Cha Town are among the must-see spots for the younger generation.

Firstly, based on the characteristics of the big data industrial park, three energy storage application scenarios were designed, which are grid center, user center, and market center. On this basis, an optimal energy storage configuration model that maximizes total profits was established, and financial evaluation methods were used to analyze ...

The company is located in Shanghai Industrial Comprehensive Development Zone (Xidu Park), covering an area of 12000 square meters, with a building area of 7500 square meters. There ...

Zhongguancun Life Science Park, located at the Technology Innovation Corridor on Beiqing Road, the "Golden Cross" connecting Haidian District and Changping District, is an important support carrier to build an international technology innovation center and a world-leading science park in Beijing. ... Phase II of the Life Park will be built ...

Xixian New Area is strengthening ties with the outside world by launching a series of projects such as the Sino-Russian Silk Road Hi-tech Innovation Park, the trade center for South American commodities and the industrial park for international airport express. The area is also aiming to build itself into an international aviation hub.

Jiangsu Fengdong Thermal Technology Co., Ltd. is a leading integrated provider of solution in the heat treatment industry and a world renowned manufacturer of heat treatment equipment. Its products are widely used in aerospace, automotive, engineering machinery, rail transportation, ships, chemical machinery, machinery basic parts industries ...

The total investment of the new energy material industrial base project of Shaanxi Coal Technology Research Institute is 2.56 billion yuan, and the construction content includes 15,000 tons/year of ternary cathode ...

The company is located in Shanghai Industrial Comprehensive Development Zone (Xidu Park), covering an area of 12000 square meters, with a building area of 7500 square meters. There are 54 employees, including 22 with college education or above, 22 with intermediate or above professional titles, and 3 with senior professional titles.
