Stories about the design and architecture of Exhibition Hall projects from around the world. In the list below, you'll find the most recent Exhibition Hall news, and ideas that arouse the most interest in our audience.

16,000m² exhibition hall is divided into three levels. The first and the second floor is 6,500 m² respectively, and the third floor is 3,000 m², totally holding 890 standard booths. The hall provides a large venue of modern exhibitions and conventions to make up the shortage of exhibition platform in Shanghai.

Unlike the mass-produced artificial materials of recent years, these natural materials are eco-friendly and have long been utilized traditionally in Asia. They are durable, resistant to damage, and adaptable to their environment. We aim to design an exhibition hall where visitors can appreciate both the antiques and the evolving space over time.
