Armed with six 8.8 cm Flak 36 guns this battery could engage enemies in the air and on sea near the coast. It consisted of 6 L 401s with entrance defence, one L 403 fire control post and a L 405 radar bunker. All of the defences are present today but except for the L 405 all of them are closed.

Batterie Dollmann, Pleinmont, Guernsey. Details. The island was ringed with heavy batteries, three Naval (Abteilung 604) & eight Army Heeres Küsten Artillerie). Sizes range from 15cm to 30.5cm. the Mirus Batterie. Mostly captured guns from all over Europe. The Dollmann Batterie were (f) French Schneider et Cie.

of Le Creusot.

A tour of one of the four vast WWII German underground batteries that made up the largest gun battery in the Channel Islands. This particular one (Gun No 3) is one of the best preserved and shows how much effort went into Hitler's directive of October 1941- making Guernsey into an impregnable fortress.

The Batterie Mirus is located in Saint Peter and Saint Saviour, Guernsey. Originally called Batterie Nina, it comprised four 30.5 cm guns. The battery was constructed from November 1941 and through the first half of 1942, and was the largest battery in the Channel Islands, the guns having a maximum range of 51 km. Although the guns were removed in the early 1950s, the reinforced ...

Home; Historic Sites; C18th & 19th Defences; Gun Batteries; Gun Batteries. ... stood guard over the western approaches to the Braye du Valle which once separated the Clos du Valle from the rest of Guernsey. In 1816 the battery had three 24 pounder cannon and two nine pounder cannon. Replicas of these guns can be seen at the site today.

There were six M 151 personnel bunkers, an M 145 ammo store, a rare M 131 generator bunker and three Fl 242 for 2 cm Flak. Unfortunately due to the quarrying only the M 131, M 145 and two Fl 242 remain. The battery was manned by the 4./604 Marine Artillerie Abteilung. It has a sister battery on Alderney which is still complete (Bt Annes).

Armed with four 22 cm K532 (f) guns. They were placed in open emplacements with each two Sk ammo bunkers. The battery command/fire-controlpost was stationed in a M 132, built with concrete roofs instead of armoured turrets. One of the emplacements has been refurnished with the original 22cm gun which was dug up from a cliff in Jersey.

WITHIN the first hour of Festung Guernsey's opening of Batterie Mirus, more than 600 islanders had turned up to take a look inside. By Zoe Fitch. Published Aug 17, 2020. Three-year-old Jacob Alderton was a happy boy on Saturday. He prefers bunkers to the park. (Pictures by Adrian Miller, 28585669)
