

What is Hazelwood Bess?

Jointly funded and developed by ENGIE and Eku Energy, the 150 MW/150 MWh Hazelwood BESS is Australia's largest privately funded utility-scale battery.

Is Hazelwood a new era in Australia's energy transition?

Marking a new era in Australia's energy transition, Hazelwood is the first retired coal-fired power station to host a battery storage system in Australia and represents a key moment in repurposing former thermal assets for renewable energy technologies.

What is a Hazelwood battery?

The Hazelwood battery has the capacity to store the equivalent of an hour of energy generated from the rooftop solar systems of 30,000 homes. It will play a critical role in increasing renewable energy capacity in Victoria while delivering essential system services to the grid.

When will the Hazelwood battery energy storage system be operational?

Engie announced on Wednesday that construction of the Hazelwood Battery Energy Storage System (BESS) has commenced and network connection agreements are already in place, with the battery scheduled to be operational by November 2022.

Can Hazelwood battery energy storage system improve electricity grid stability?

It's possible. The Hazelwood Battery Energy Storage System (HBESS) is a 150MW/150MWh utility-scale battery that delivers further electricity grid stability for Victoria.

What happened at Hazelwood Bess inauguration event?

An official inauguration event was held for Hazelwood BESS this morning, attended by dignitaries including Victoria's minister for energy & resources, Lily D'Ambrosio, and executives from ENGIE, Eku Energy and battery system supplier and integrator Fluence. It is sited in Victoria's Latrobe Valley.

Hazelwood, a 150MW/150MWh BESS asset co-developed by Eku in Australia, where the company has benefitted from a variety of commercialisation options, Nick Morely said. Image: Eku Energy . The banker made a comparison with the Australian market, which is starting to see more and more tolling agreements, as well as merchant business models, and ...

The Hazelwood BESS project, for which Fluence provide the BESS technology, was commissioned in June this year. Image: Fluence. Norwegian state-owned power producer Statkraft has enlisted system integrator Fluence for a 50MW transmission system-connected battery energy storage system (BESS) in the UK.
