

The energy storage arm of Chinese solar PV inverter manufacturer Sungrow announced the signing of an agreement earlier this week with renewable energy company MSR-Green Energy (MSR-GE) for the 100MW/400MWh project in Sabah, a state in northern Borneo.

This new funding is to finance the majority of a 747MW existing battery storage pipeline the company is acquiring, with this consisting of projects in the UK and Ireland. Due diligence is under way for 674MW of this. John Leggate CBE, chair of Gresham House Energy Storage Fund PLC said: "Strong investor demand means that we can commit to further ...

Global energy storage market: H1 2024 installation figures Policy mandates in China have driven the global energy storage market in the first half of 2024 to new highs, backed by the rapid growth in the US market. Meanwhile, Europe posted mixed results. Robin Song, InfoLink Consulting's energy storage analyst, breaks down the figures.

Gresham House Energy Storage Fund has entered a power purchase agreement (PPA) with a subsidiary of Octopus Energy for 14 of its battery projects, totalling 568MW/920 megawatt hours (MWh), in the UK. The two-year fixed-price contracts, in place from 1 July 2024, cover approximately half of the company's 1.07GW target portfolio.

Gresham House Energy Storage Fund (GRID) is on track to own more than 1.2GW of operational battery energy storage systems after securing a deal to acquire 425MW of projects from Gresham House Devco and expanding its exclusive pipeline by a further 427MW.

SECI supported development of India's biggest solar-plus-storage project so far in Chhattisgarh (pictured), pairing 40MW/120MWh of battery storage with a 100MWac PV plant. Image: PIB Delhi . Solar Energy Corporation of India (SECI) has launched a tender for battery energy storage systems (BESS) with aggregate output and capacity of 1,000MW/2 ...

London Stock Exchange-listed investor Gresham House Energy Storage Fund has raised £120 million (US\$159.86 million) to finance six new energy storage projects. These new near-term acquisitions - totalling 245MW - are part of its c.485MW new pipeline, although small amounts of the funds will go towards existing energy storage projects.

Those sleek solar panels are soaking up the rays, churning out more electricity than the house could possibly use. But instead of letting all that green power go to waste, energy storage systems swoop in to save the day. ... Thermal energy storage: Picture heating up large steel drums of water in the sun during the day, and then tapping into ...

Energy storage should be treated as an independent participant in electricity markets, which would remove many of the regulatory barriers it currently faces. ... (DNO) in the Southeast European country of Montenegro, is looking to add 300MW of BESS to its grid. US solar and storage project progress for Pine Gate, Avantus, Arevon in Western states.

17 · This draft Energy Storage Strategy and Roadmap (SRM) update conforms to the language set forth in the "Energy Storage System Research, Development, and Deployment Program" as required by the Better Energy Storage Technology (BEST) section of the Energy Policy Act of 2020 (42 U.S.C. 17232(b)(5)). Specifically, this draft Energy Storage SRM ...

UK battery energy storage system (BESS) owner-operator Gresham House Energy Storage Fund has put a 50MW/50MWh project into commercial operation in Lancashire. Situated in Penwortham, south-west of the county capital Preston, the 1-hour duration BESS is set to be expanded to 2-hours in the summer, meaning its capacity would be 50MW/100MWh.

The MACSE auction will provide 15-year contracts for energy storage projects whereby they will be paid annual premiums to cover operating costs in exchange for making their capacity available on the Dispatching Services Market (acronymised in Italian as MSD). It will be led by transmission system operator (TSO) Terna.

The new coincides with the government increasing its financial support for energy storage via two schemes, both using funds from the EU's Modernisation Fund. ... in the Southeast European country of Montenegro, is looking to add 300MW of BESS to its grid. EU Roundup: "Sand Battery" for electricity storage, 44MWh France BESS online, Spain ...

Paris, September 12, 2024 - Qair, a European independent renewable energy company and Elektroprivreda Crne Gore AD Nikšić (EPCG), a state-controlled power utility of Montenegro, announce today the signing of a memorandum of understanding to advance the dynamic development of renewable energy projects in Montenegro. The partnership sets the stage for ...

John Leggate CBE, chair of Gresham House Energy Storage Fund, said that the outlook for energy storage sector investments remains very exciting, particularly due to the recent Contracts for Difference (CfD) auction launch. The fourth round of the CfD opened last month, with co-located storage allowed to participate for the first time.

2 · Montenegro's state-owned power utility, Elektroprivreda Crne Gore (EPCG), intends to invite bids by the end of the year for the installation of battery energy storage systems. ...

The agreement marks a significant step toward enhancing Montenegro's energy security, leveraging EDF's expertise as one of Europe's leading energy companies. ... EPCG and EDF, potentially including the design of large-scale photovoltaic systems related to hydropower projects, energy storage solutions such as batteries,

and green hydrogen ...

Elektroprivreda Crne Gore (EPCG), the largest electricity producer in Montenegro, has taken a significant step towards enhancing energy sustainability by adopting the Project Task for Battery Electro-Storage Systems (BESS). This project aims to support the country's transition to renewable energy by providing a solution for storing excess energy ...

BESS technology will enable the storage of surplus energy generated from renewable sources, reducing reliance on fossil fuels and supporting sustainable development. ...

Introduction TOPLA KU?A is pleased to present our new project - the production of lithium batteries in Montenegro. We have conducted extensive research into the energy solutions market and have concluded that lithium batteries are the future. Our goal is to become a leader in the production of lithium batteries...

One of the fund's battery energy storage system (BESS) projects. Image: Gresham House. Gresham House Energy Storage Fund (GRID) has seen its net asset value (NAV) increase by 53.5% to £785 million (US\$879 million), the London Stock Exchange-listed firm disclosed in its half year results ending 30 June 2022.

Montenegrin power utility Elektroprivreda Crne Gore (EPCG) said it plans to develop a battery energy storage system (BESS) in order to take the full benefit of renewable energy production.

Image: Gresham House. Battery energy storage fund Gresham House has released annual accounts for the first half of 2023, showing lower H1 2023 revenues and a drop in share value. In 2022, the company's earnings before tax (EBITDA) was £48.8 million (US\$61.80 million), "a like-for-like increase of 23.2%", while the share value increased ...

Strategic Power Project's finance director Iain Lees and managing director Paul Carson. Image: Strategic Power Projects. UK-headquartered asset manager Gresham House has partnered Irish developer ...

Montenegrin power utility Elektroprivreda Crne Gore (EPCG) will launch by the end of 2024 a project for the development of battery energy storage systems (BESS), the head ...

Solar Montenegro as part of Clarion Partners Owners Engineer is a regional consulting, engineering, testing, and quality control firm, a benchmark in Energy storage and solar Energy solutions in the regional market. We provide technical expertise, independent advice, and a wide range of solar services for solar farms and utility-scale projects ...

Glassenbury, one of the earlier BESS projects added to Gresham House's portfolio. Image: Gresham House. Delays in the growth of Britain's battery energy storage system (BESS) sector helped boost Gresham House Energy Storage Fund's (GRID) portfolio performance, resulting in a "strong growth in earnings" in 2022.

Lithium-ion battery systems store energy when demand is low and release it when it's high, making Montenegro's energy grid more flexible and reliable. For example, during a sunny day, ...

The new coincides with the government increasing its financial support for energy storage via two schemes, both using funds from the EU's Modernisation Fund. ... in the Southeast European country of Montenegro, is ...

Elektroprivreda Crne Gore, owned by the Government of Montenegro, started the preparations to install battery energy storage systems. It is a pioneering move among state-owned power companies in the Western ...

Montenegro's largest power utility, EPCG, said it plans to develop lithium-ion battery energy storage systems at four locations in order to harness excess renewable energy ...

Gresham House Energy Storage Fund revenues start to recover. Earlier this month, Gresham House Energy Storage Fund stated that its revenues had started to recover in 2024 after falls in 2023. The company confirmed the presence of a "weak revenue environment" in 2023, with a 38% fall in revenues to €38.7 million (US\$48 million), and a 47% ...
