

In order to achieve the energy objectives of the Government of Gambia, the Ministry of Energy was created in 2007. Gambia's long-term strategic plan, also known as Vision 2020, acknowledges that infrastructure, reliable power supply and access to energy are relevant to economic development in Gambia (GOG 1996). The 2014-2018 National Energy Policy of ...

So, reducing energy consumption can inevitably help to reduce emissions. However, some energy consumption is essential to human wellbeing and rising living standards. Energy intensity can therefore be a useful metric to monitor. Energy intensity measures the amount of energy consumed per unit of gross domestic product.
