

What is Antora energy?

Antora Energy is unlocking zero-emissions industrial heat and power, cheaper than fossil fuels. Antora's thermal battery uses renewable electricity to heat blocks of solid carbon--a low-cost, earth-abundant, and safe storage medium that's used extensively across industries--to glowing-hot temperatures.

What is Antora & how does it work?

Antora bridges the gap between renewable energy and industrial manufacturing. By tapping into low-cost, abundant wind and solar energy, Antora's thermal batteries directly displace onsite fossil fuel combustion at industrial facilities--slashing emissions and enabling manufacturers to use locally-produced, zero-emissions energy.

What is Antora thermal battery?

Antora's thermal battery turns cheap, clean energy into the standard that powers global industry. Charges with surplus clean electricity to deliver cost-effective, zero-emission energy at a predictable price. Multi-day storage delivers always-on heat and power for industrial operations where downtime is not an option.

How will Antora's batteries impact the energy industry?

Traditionally, fossil fuels have been the cheapest way to power industry, making it the largest greenhouse gas-emitting sector in the country. With Antora's batteries, factories could run on low-cost renewable energy 24/7 without relying on cost-prohibitive, critical material intensive lithium-ion batteries.

What can Antora do for your business?

They Could Also Help Spell the End of Fossil Fuels. LET'S TALK ABOUT WHAT ANTORA CAN DO FOR YOUR BUSINESS. Electrify industrial operations, predictably and profitably. Antora's American-made thermal batteries convert renewable energy into reliable heat & power.

Is Antora a lithium ion battery?

Antora's battery is 3x energy dense compared to lithium-ion batteries. Antora's first commercial-scale thermal battery at Wellhead Electric Company in Fresno, California reached the highest temperature achieved to date for a thermal battery at full scale-1,800°C.

On February 22, 2024, ARPA-E awardee Antora Energy announced a \$150 million Series B funding round, led by Decarbonization Partners, for their modular thermal batteries. In March 2024, DOE's Office of Clean Energy Deployment announced the department's largest industrial decarbonization investment to date, and Antora is part of a team that is selected to receive up ...

Antora Energy is unlocking zero-emissions industrial heat and power, cheaper than fossil fuels. Antora's thermal battery uses renewable electricity to heat blocks of solid carbon--a low-cost, earth-abundant, and safe storage medium that's ...

Antora Energy | 17,933 followers on LinkedIn. Antora is unlocking zero-emissions industrial energy, cheaper than fossil fuels. | Antora is unlocking zero-emissions industrial energy, cheaper than fossil fuels. Antora's thermal batteries store energy from renewables as heat for days on end, delivering that stored energy as heat and power at the scale and temperatures that large ...

The World Economic Forum is an independent international organization committed to improving the state of the world by engaging business, political, academic and other leaders of society to shape global, regional and industry agendas. Incorporated as a not-for-profit foundation in 1971, and headquartered in Geneva, Switzerland, the Forum is tied to no political, ...

Antora Energy's Post Antora Energy 19,288 followers 4mo Report this post ... the collaboration between PT Asahimas Chemical & WeNetwork is crucial for developing human resources in Indonesia. As ...

ARPA-E Disruptors are stories about trailblazing ARPA-E technologies that promote a secure, affordable, and sustainable American energy future. ARPA-E technologies are transforming the way we use, generate, and store energy, ...

PT Alamtri Resources Indonesia Tbk (ADRO), sebelumnya PT Adaro Energy Indonesia Tbk, dimulai pada tahun 1970 ketika perusahaan Spanyol, Enadimsa, mengajukan penawaran konsesi batu bara di Blok 8 di Kabupaten Tanjung, Kalimantan Selatan. Perusahaan ini diberi nama "Adaro" untuk menghormati keluarga Spanyol yang terlibat dalam pertambangan.

Antora is unlocking zero-emissions industrial energy, cheaper than fossil fuels. Antora leverages renewable electricity to heat blocks of solid carbon--a low-cost, earth ...

Antora Energy's Post Antora Energy 19,230 followers ... of the Aceh biogas plant is a strategic move that aligns perfectly with our growth plan in the realm of sustainable energy. Indonesia ...

World's First Thermal Battery Capable of Cost-Effectively Delivering Zero-Carbon Heat and Power .

Sunnyvale, CA - Antora Energy, a leader in zero-carbon heat and power for the industrial sector, has launched its proven, ready-to-scale thermal battery. The company revealed that it has reached the highest temperature that has been demonstrated to ...

US\$150 million has been raised in a Series B by Antora Energy, a US-based startup with a novel "thermal battery" technology claimed to be suitable for decarbonising industrial processes. The company's product ...

Experienced engineering leader with a demonstrated track record of taking iPod, iPhone... · Experience: Antora Energy · Education: Stanford University · Location: Los Altos · 500+ connections ...

Antora's three co-founders came together as Activate Fellows. Today, they are among the country's top energy storage innovators. Images of solar farms and massive turbines evoke hope for the clean energy transition, but they obscure the real work involved in capturing, storing, and using that energy to power the industries most reliant on fossil fuels today.

Antora Energy developed a revolutionary way to decarbonize heavy industry using thermal batteries that are 3x more energy dense than lithium-ion batteries. Antora's ...
