

What does STI stand for in South Africa?

The Minister of Higher Education, Science and Innovation, Dr Blade Nzimande, launched the 2023 South African Science, Technology and Innovation (STI) Indicators Report on 10 August 2023. The report outlines the state of STI in South Africa in the context of deepening global economic, ecological and social crises.

What is the STI Indicators report?

The 2020 STI Indicators Report provides information on the state of STI in South Africa over time and within a global context. It collates select STI data and information from different sources so that it may become an integrated resource for NSI actors. It strives

What does the 2020 STI Indicators report mean for South Africa?

The 2020 STI Indicators Report reflects progress on some indicators, while pointing to areas of concern. Although South Africa's research system, particularly public institutions such as universities and science councils, has shown a steady increase in scientific publications

Is the STI Indicators report a factual source?

The STI Indicators Report contains a lot of quantitative evidence, which may require further analysis (including qualitative) in order to understand some issues or questions better. As much as it is tempting, the STI Indicators Report does not offer

What is the Science Technology & Innovation Strategy for Africa (STISA) 2024?

In Africa, the Science, Technology and Innovation Strategy for Africa (STISA)-2024 is the first of ten-year incremental phasing strategies to respond to the demand for Science, Technology and Innovation (STI). It covers critical sectors such as agriculture, energy, environment, health, infrastructure development, mining, security and water.

Can South Africa improve its interaction with African counterparts in S&T?

The resultant analysis leads to a set of recommendations as to how the South African government could effectively improve its interaction with its African counterparts in S&T initiatives.

The major overall public health system challenges reported by stakeholders involved fragmentation of services, staff shortages and financial/cash-flow problems. Background Since the advent of democracy, the South African government has been putting charters, policies, strategies and plans in place in an effort to strengthen public health system performance and ...
