

What does Inventus power do?

Its products include chargers and docking stations, custom battery packs, and power supplies. The company offers vertical integration, testing, sourcing, and supply chain services. Inventus Power caters to consumer devices, landscaping, medical, military, cleaning, and other sectors.

Where is Inventus power manufactured?

Inventus Power has four manufacturing facilities located in Woodridge, Illinois, USA, Tijuana, Mexico, Qingxi, China; and Manaus, Brazil. This global manufacturing footprint allows us to strategically balance such factors as product mix, operating costs, and speed of delivery.

How big is Inventus power?

Looming large in the area is Inventus Power's manufacturing facility, totaling some ~7500 sq. meters (~80,000 sq. feet) of production space, with additional expansion capacity in the wings.

Is Inventus Manaus a good company?

In fact, Inventus Manaus has been recognized by the Brazilian Association of Human Resources for its building of a dynamic learning and development culture. But training is only one part of the plant's equation for success. The Manaus facility had originally been established by another company in 1995, geared to producing simple cable products.

What makes Inventus Manaus unique?

The plant invests in thousands of hours of training every year, such as six sigma quality programs, student apprenticeship programs, and more. In fact, Inventus Manaus has been recognized by the Brazilian Association of Human Resources for its building of a dynamic learning and development culture.

Why did Inventus Power Invest in staffing?

“With this investment in staffing, we are executing on our strategic growth plan and better supporting our global customer base,” said Patrick Trippel, President and CEO of Inventus Power. “A strong presence in Asia is crucial to our success and I am excited to have strong team members onboard to build and unify our global brand.”

Helping contribute to a more sustainable future. At Inventus Power, our mission is to lead the global transformation towards a sustainable future with our advanced battery technology and highly engineered solutions - ultimately fostering a world where battery technology improves sustainability and enhances the quality of life for existing and future generations.

Inventus Power engineers and manufactures custom and standard battery packs for a broad range of portable, motive & stationary applications. With 60 years of battery industry experience, we have worked with multiple cell chemistries (i.e. Lithium based, NiMH, NiCd, Sealed Lead Acid). Over the last 30 years, our focus has

been on Lithium-ion (Li ...

&#169;2024 Inventus Power Inventus Power is the global leader in advanced battery systems. We design and manufacture standard and custom battery packs, chargers and power supplies for global OEMs.

Inventus Power has four manufacturing facilities located in Woodridge, Illinois, USA, Tijuana, Mexico, Qingxi, China; and Manaus, Brazil. This global manufacturing footprint allows us to strategically balance such factors as product ...

There are several reasons why Inventus Power is the preferred partner of the world's leading Original Equipment Manufacturers (OEMs) of High-End Consumer Devices. ~60 years of industry experience designing & manufacturing battery ...

What does Inventus Power's future look like for the EMEA region? Michael: As we enter into a post COVID-19 world, we expect EMEA markets to continue to grow in number and speed. The region has vast opportunities in motive and stationary applications as well and within the medical and military space. The lithium-ion battery market is still in ...

Inventus Power specializes in engineering and manufacturing custom battery & power solutions for complex applications. We also offer proprietary lithium-ion battery packs, power supplies, ...

**LOCATIONS** An Expansive Global Footprint . With multi-country locations across 4 continents, 4 manufacturing facilities, more than 300 engineers, and a multi-tiered sales channel extending throughout the US, Europe, Brazil, and Asia, we possess the broad capabilities needed to take major applications to a global marketplace.

Inventus Power, formerly ICCNexergy + Palladium Energy, is the world's **ONLY** power systems manufacturer that integrates and delivers battery packs, chargers & docking stations and ...

Last year, we announced that Inventus Power received ECE R100\_rev3 Certification on our PROTRXion 48 volt lithium-ion (M-48V60-TRX) battery modules, making them an even better choice for powering category N1 up to 3.5 tons, M1 up to 9 seats, and passenger car and light commercial on-road electric vehicles with maximum speed exceeding 25 km/h. ...

Inventus Power's PROformance Li-ion batteries offer a high-performing, fast-charging, and maintenance-free solution for motive and stationary applications. Made up of two product families, U1LiFePRO & PROTRXion, each includes models that are scalable to address different market needs and related duty cycles for each end application.

Inventus Power creates and delivers innovative designs for internal, external, single- and multi-bay chargers and docking stations. We apply nearly 60 years of engineering expertise to meet demanding requirements for a broad range of portable, motive & stationary applications. Every solution is designed with an exceptional understanding of the ...

Visit Inventus Power at LogiMAT - March 19-21 - Hall 10 - Stand 10C01! Check out the latest innovations in Li-ion battery solutions driving process improvement and sustainability in distribution, fulfillment, and intralogistics.
