

Is it worth applying for energy storage science and engineering at harbin institute of technology

How many degrees does Harbin Institute of Technology have?

Harbin Institute of Technology provides a complete range of disciplines including Philosophy, economics, law, education, literature, history, science, engineering, management, and art. It is composed of twenty-two schools, having in all 73 undergraduate programs, 148 master's programs, 117 doctoral degree programs and 25 Post-Doctoral Programs.

What is Harbin Institute of Technology known for?

Harbin Institute of Technology, HIT was founded in 1920 and is one of China's oldest and most influential universities. It is widely recognized for its excellence in science, engineering, and technology education. The university has made significant contributions to scientific advancements and technological breakthroughs in various fields.

How many research projects does Harbin Institute of Technology do?

In 2012, Harbin Institute of Technology has undertaken more than 4000 items research projects, and the total research funding reaches more than 20 billion CNY. What is more, eight items of projects won national awards for science and technology.

Is Harbin Institute of Technology a member of China University Union?

In 2009, Harbin Institute of Technology becomes a member of China University Union (C9) in China. (2) Discipline and programs Harbin Institute of Technology, with science, engineering and research as its core, encompassing management and liberal arts, shall develop into an open, multi-disciplinary, high-ranking and world famous university.

What are the strengths of Harbin Institute of Technology?

The core strengths at Harbin Institute of Technology continue to be Scientific Research and Engineering Technology, with strong faculties in Management, Liberal Arts, Economics and Law. HIT is well on its way towards achieving the goal of being a world-class university. (1) History

Does Harbin Institute of Technology accept international students?

Harbin Institute of Technology's acceptance rate range is 40-49% making this institution an averagely selective higher education institution. International students are welcome to apply for admission at this institution. Harbin Institute of Technology has more than 1800 international students.

Harbin Institute of Technology (HIT) is recognized as a prominent member of the C9 League and is often referred to as "the cradle of engineers in China." HIT has established a global...

Harbin Institute of Technology is renowned for its strong programs in engineering and technology. Here are
