

What is the role of energy transformation in Italy?

How is energy used in Italy? Total energy supply (TES) includes all the energy produced in or imported to a country, minus that which is exported or stored. It represents all the energy required to supply end users in the country.

How did Italy reduce its dependence on Russian gas?

On the good side, Italy managed to significantly reduce its dependence on Russian gas, substituting it with imports from North Europe, Azerbaijan, Algeria, and an increased use of LNG terminals. Clara Poletti, representing ARERA, elucidated how energy regulators played a pivotal role in assisting the public during the surge in energy prices.

How has Italy's energy system changed since 2010?

Italy's energy system has changed notably since 2010 and today the country's energy mix includes more natural gas and renewable energies and less coal and oil.

What type of energy is used in Italy?

Renewable energy here is the sum of hydropower, wind, solar, geothermal, modern biomass and wave and tidal energy. Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important energy source in lower-income settings. Italy: How much of the country's energy comes from nuclear power?

Is Italy phasing out Russian gas dependence by 2025?

Italy is committed to phasing out the dependence of Russian gas by 2025. Over the last decade, Italy has diversified its gas supply routes and sources and increased the flows through the existing liquefied natural gas (LNG) and pipeline import infrastructure.

What is Italy's energy decree?

On December 9, 2023 the Italian Government approved Law Decree No. 181/2023 (the "Energy Decree"), which was converted with amendments into Law No. 11 of February 2, 2024. The purpose of the Energy Decree is to improve Italy's energy security, promote the use of renewable energy sources, and support energy-intensive companies.

Ethical Conduct. Conducting business with the utmost integrity, honesty, and ethical standards, fostering trust and long-term relationships with customers, partners, and stakeholders.
