

What is JA Solar's energy storage solution?

JA Solar Energy Storage is dedicated to becoming a leading global provider of energy storage products and solutions.

Where will JA Solar build a new manufacturing facility?

JA Solar says it will build a new manufacturing facility in Inner Mongolia, China. The plant will produce everything from polysilicon to solar panels. JA Solar has signed an agreement with the municipal government in Erdos, in China's Inner Mongolia region, to build a new vertically integrated production facility.

Where is JA Solar based?

JA Solar has signed an agreement with the municipal government in Erdos, in China's Inner Mongolia region, to build a new vertically integrated production facility. The Chinese solar module maker said it will invest CNY 40 billion (\$5.9 billion) in the new factory, which will be built in several phases.

How many factories does JA Solar have?

The company has 9 manufacturing facilities in China and one in Malaysia and Vietnam with a total annual production capacity of 42.5 GW (reported by Bloomberg NEF). This makes JA Solar the third largest producer of Solar Panels as of September 2021. JA Solar has 25,000 employees as of 2022 working across 32 factories and branches around the world.

What is JA Solar's production capacity?

Module manufacturer JA Solar has reached respective wafer and module production capacities of 1.5GW and 3.5 GW in Vietnam, the company said in an online shareholder meeting. JA Solar said another 3.5GW of cell capacity should be operational by the end of June. The company also has 1.5GW of cell capacity in Malaysia.

What are JA Solar Products?

JA Solar Products offer a range of solutions including Solar Panel Kits (Roof Top, Ground Mount, Top of Pole Mount), Solar Panels (Monocrystalline, Polycrystalline), Inverters (Micro, String, Hybrid), Battery Based Pre-Wired Systems, Inverter Monitoring Gateways, Meters, Displays, Controllers, and Communications Cards.

Returning for its 12th edition, Solar and Storage Finance USA Summit remains the annual event where decision-makers at the forefront of solar and storage projects across the United States and ...
