

Who is GreenGo energy Germany?

GreenGo Energy Germany GmbH, the German arm of the Danish GreenGo Energy Group, has expanded its management team with the addition of two experienced professionals. Claas Oltmann and Dr. Philipp Schmagold, both with extensive backgrounds in renewable energy, join the company to lead efforts to develop large-scale, subsidy-free energy parks.

Will Mauritania get a big green energy project?

Image by GreenGo Energy () Danish renewable energy developer GreenGo Energy Group on Monday unveiled plans for a huge green energy project in Mauritania that will involve 60 GW/190 TWh of hybrid solar and wind generation and 35 GW of electrolysis capacity.

Who are GreenGo energy & New Power Partners?

The company has selected Danish consulting company COWI for power-to-X and infrastructure design and New Power Partners for renewable energy engineering design. GreenGo Energy CEO Karsten Nielsen stated: "The climate crisis is real.

Is Namibia a future hub for green hydrogen?

This move underscores our commitment to driving the transition to a sustainable, NetZero future by leveraging Namibia's unique potential as a future hub for green hydrogen. GreenGo Energy and Doral Energy are excited to see the construction of Project M110, a 60 MWp solar park in Urup, Denmark taking place.

How much water does GreenGo generate a year?

It will generate 70 million tonnes of desalinated water each year to support farming - three times what is used by the project to produce green fuel. GreenGo submitted the application in late November 2023. The ministry has expressed an interest and the company expects approval in the first quarter of 2024.

How much power does GreenGo use?

The project will use more than 10 TWh of surplus power to build a large-scale desert farming industry. It will generate 70 million tonnes of desalinated water each year to support farming - three times what is used by the project to produce green fuel. GreenGo submitted the application in late November 2023.
