

What does LONGi do?

LONGi's mission is to provide innovative products and solutions that contribute to a healthier, safer, and more sustainable world. We strive to uphold the highest standards of environmental, social, and corporate governance in the global business community.

What makes Longi a leader in the PV industry?

LONGi demonstrates its leadership in the PV industry in energy transformation. LONGi's products fulfilled 15% of new energy installations in the world each year, and is the world's largest supplier of power generation equipment in the PV sector.

Why should you choose LONGi?

LONGi is a world leader in the clean energy transition. We provide a comprehensive suite of solar PV solutions that can optimize a wide range of project applications. The LONGi team is committed to providing innovative products and solutions that help make the world a healthier, safer, and more sustainable place.

What does LONGi Solar aim to do?

Our solar modules help accelerate the clean energy transition, making the world healthier and more sustainable. LONGi's technological and manufacturing leadership in solar wafers, cells and modules underscores our commitment to helping achieve this goal.

What makes Longi a great solar company?

LONGi supplies more than 30GW of high-efficiency solar wafers and modules worldwide yearly, about a quarter of global market demand. LONGi is recognized as the world's most valuable solar technology company with the highest market value. Innovation and sustainable development are two of LONGi's core values.

Is Longi a good company?

LONGi has consistently maintained industry leading ability to mitigate risk and adapt to market changes and, as part of operations, the company prioritizes corporate financial health and stability, with its asset-liability ratio at a low level compared to other global PV manufacturers. Bifacial power generation .

LONGi's "Green Power + Green Hydrogen" system solution now can undertake off-grid and grid-connected hydrogen production projects independently, integrating systems across multiple professional fields including new energy, power electronics, energy storage, chemical engineering, and automation control.

Products Solutions Sustainability Service Center ... Supported by flexible energy storage and other advanced technologies as well as innovative policy mechanisms, efforts can be made to optimize the actual load demand and integrate the power supply and grid resources in a safe, green, and efficient manner. ... LONGi offers professional ...

LONGi Green Energy Technology Co., Ltd. was established in 2000 and is committed to becoming the most valuable solar energy technology company in the world. Click and learn more about LONGi. ... While creating ...

LONGi, using innovative products and solutions help the world a healthier, safer and more sustainable place. Solutions ... 19th February, 2025, LONGi Green Energy Technology ...

LONGi is committed to the standardization of materials. Materials meeting the high standards LONGi are unified as LONGi brand, which further improve the consistency of

LONGi, using innovative products and solutions help the world a healthier, safer and more sustainable place. ... On October 30th, 2024, LONGi Green Energy Technology Co., ...

February 11th, 2025 | Xi'an, China - Energy 3000 Solar GmbH (hereinafter referred to as "Energy 3000"), a European distributor of PV products, officially signed a strategic cooperation agreement with LONGi Green Energy ...

Since 2015, LONGi has located its operations in Kuching, Malaysia, to utilize the abundant local hydropower resources to provide clean energy for its facilities. LONGi plans to integrate solar power plants with pumped storage in ...

,??"?" ...

LONGi Energy Storage has established itself as a formidable player in the renewable energy sector through its commitment to innovative products and effective solutions. 1. The company is known for its advanced battery technology, which emphasizes efficiency and reliability in energy storage, 2.

February 27th, 2025 | Jiangsu, China - On February 27, 2025, Li Zhenguo, founder and president of LONGi Green Energy Technology Co., Ltd. (LONGi), attended the China Photovoltaic and Energy Storage Original Technology Forum in Suzhou and emphasized the importance of independent innovation and the development of original technologies for photovoltaic industry.

Products Technology Service About LONGi Australia English. Home / Solar-plus-Energy Storage Plants ... Supported by flexible energy storage and other advanced technologies as well as innovative policy mechanisms, efforts ...

Products Technology Service Sustainability About LONGi ... thermal and other power types can be integrated with battery energy storage and pumped storage, resulting in a more reliable, sustainable and stable supply of green power. ... LONGi offers professional consulting services, PV technical knowledge of complementary hybrid power solutions ...

LONGi Green Future, LONGi always focuses on the innovation and application of solar energy technology, sparing no effort to " Utilize Sunchine, Create a Green World" for mankind. Here we provide the latest globalization information about LONGi, click and learn more.

Longi said it has achieved a 27.81% efficiency rating for a hybrid interdigitated back contact, as confirmed by Germany's Institute for Solar Energy Research Hamelin (ISFH).

KATOWICE, Dec. 11 (Xinhua) -- The combination of photovoltaics (PV) and energy storage will become the ultimate energy solution for mankind, said Li Zhenguo, president of LONGi Green Energy Technology Co., Ltd, a world ...

Shanghai, China, September 3rd - The 10th All Quality Matters (AQM) Solar & ESS Congress, organized by the TÜV Rheinland Group, took place in Shanghai on September 3, 2024. The congress featured 25 AQM ...

LONGi Green Energy Technology Co., Ltd. has illustriously advanced its capabilities in the energy storage battery sector, a critical component in the transition to ...

With the goal of safety, green and high efficiency, Longji source network load storage integration innovates the power production and consumption mode, explores the ...

LONGi is a world leader in the clean energy transition. We provide a comprehensive suite of solar PV solutions that can optimize a wide range of project applications. LONGi ...

LONGi Hydrogen is a global leading green hydrogen production and solution provider, with focus on alkaline electrolysis technologies. Leveraging on technological innovation, LONGi Hydrogen is dedicated to driving the ...

Discover LONGi's Home Series solar panels, offering up to 670W output and 24.8% efficiency. Engineered for maximum energy generation and durability, these panels are ideal ...

Products Technology Service About LONGi India English. Home / Solar-plus-Energy Storage Plants ... Supported by flexible energy storage and other advanced technologies as well as innovative policy mechanisms, efforts can be made to optimize the actual load demand and integrate the power supply and grid resources in a safe, green, and efficient ...

LONGi Solar's vertically integrated production facilities in Malaysia use almost 100% hydropower for its production energy needs. With large-scale deployment of Photovoltaic + Energy Storage, LONGi Solar believes it will realize the manufacturing goal of "Solar for Solar" (photovoltaic products manufactured with photovoltaic energy). Besides ...

LONGi Energy Storage has established itself as a formidable player in the renewable energy sector through its commitment to innovative products and effective ...

LONGi Storage Solutions. Electrolytic Cell Technology. Innovation ... We provide one stop solutions for green energy driven industries by supplying high value-added products and services with higher efficiency and easier access. ... A series of figures show you how much energy had LONGi saved. Group News. 2021.07.26.

Recently, LONGi has been diversifying its portfolio to include energy storage solutions, which are critical for maximizing renewable energy use. Energy storage systems ...

Con el apoyo de un almacenamiento de energía flexible y de otras tecnologías avanzadas, así como de mecanismos de política innovadores, se pueden tomar iniciativas para optimizar la demanda de carga real e integrar el suministro de energía y los recursos de la red eléctrica de una forma segura, eficiente y ecológica. Así, se creará un nuevo modo de ...

" LONGi is thrilled to announce its participation at the Solar & Storage exhibition in the UK from October 17th to 19th. Join us at our booth to witness one of our latest and ...

Join LONGi, a leader in solar technology, at the forthcoming IESNA 2025--an event at the forefront of the clean energy revolution. This pivotal conference brings together solar professionals and thought leaders from around the globe, providing an excellent platform for networking, innovation, and career advancement. This year, we are thrilled to offer an ...

LONGi's technological and manufacturing leadership in solar wafers, cells and modules underscores our commitment to helping accelerate the clean energy transition. By offering high-quality, reliable products and systems, we ...

LONGi Hydrogen, a wholly-owned subsidiary of China's solar giant LONGi Green Energy Technology Co., Ltd. (LONGi), officially launched its new generation of alkaline electrolyzed water hydrogen production equipment ...
