

How many solar projects does Lydian energy own?

Currently, the Company owns nine projects representing 1.75 GW of solar and battery storage capacity located in Texas and New Mexico. "We are excited to announce the official launch of Lydian Energy as we embark on our mission of 'Connecting People +Power' through impactful renewable energy projects," said Lydian Energy CEO Emre Ersenkal.

Who is Lydian energy?

With the backing of Excelsior Energy Capital, Lydian's experienced team of renewable energy professionals focuses on developing high-potential mid- to late-stage renewable energy assets across North America. For more information, please visit [Follow Lydian Energy on LinkedIn](#).

What is Lydian International Limited?

Lydian International Limited, along with its subsidiaries, is a company that explores for and develops mineral properties in the Caucasus region. Its primary focus is on exploring gold and silver ores. Lydian International Limited mainly focuses on its 100% owned Amulsar gold project, which covers an area of 113 square kilometers and is located in south-central Armenia.

How much energy does Lydian use?

Lydian's technology can achieve a total energy consumption approaching 2 kWh per kilogram for the reduction of CO<sub>2</sub>, a key step in the process, which the company says will be 30% to 50% lower than competing technologies like CO<sub>2</sub> electrolysis.

Is Lydian a sustainable startup?

PRNewswire/-- Lydian, a startup aiming to produce sustainable, CO<sub>2</sub>-derived fuels and chemicals, has announced \$12M in new seed funding co-led by Congruent...

Can Lydian produce E-fuel?

Lydian is already producing small quantities of e-fuel in its Cambridge-based lab. Lydian's proprietary, high-temperature electric reactor enables the production of the world's lowest cost e-fuels, a category of drop-in alternatives to transportation fuels made from captured CO<sub>2</sub> and renewable electricity.

This agreement marks the latest announcement of Excelsior's progress in 2024. In March, the firm announced the sale of a portfolio of 38 solar energy and solar plus storage projects from its Fund I portfolio to BlackRock's Evergreen Infrastructure Partners Fund. In April, Excelsior announced the launch of Lydian Energy, a portfolio company developing a pipeline of solar and battery ...

Unlocking Investment in Pakistan's Energy Sector. In the past, Pakistan has asserted it would use up to USD \$40 billion in international grants in order to accomplish its emission reductions and realize its renewable energy goals. However, as COP29 approaches and conversations on international funding occur, the Pakistani

government must ...
