

Can a Magna fuel tank be installed in a car?

All the components, including mandatory impact protection, are accommodated in a single frame, so installing them in the vehicle is quick, simple and safe. Learn more about Magna's fuel tank systems for cars, trucks or alternative energy storage systems.

Who is Magna fuel tank?

Magna is an independent, global leader in the automotive sector, and a key partner for a wide range of OEMs. We have decades of experience producing fuel tank systems at high volumes, and we make sure our customers get the benefit of that experience.

How many vehicles does Magna make?

As a complete vehicle manufacturer, Magna has produced more than 3.7 million vehicles - of 30 different models - to date. Globally 13,500 employees support these services. This global network of more than 30 locations on four continents covers a product group for energy storage systems in addition.

Does Magna manufacture fuel tank caps?

As well as fuel tank systems, Magna also develops and manufactures the associated caps and components. Our range encompasses filler, urea, oil and radiator caps. Our reliable products meet the toughest safety and environmental standards, at the same time as providing maximum ease-of-use for the driver.

Does Magna carry diesel and urea in a single tank?

To solve this problem, Magna has developed the Combi Tank, a hybrid solution that carries diesel and urea in a single tank. The innovative system features Inner Layer Coating (ILC) technology allowing urea to be transported safely. The Combi Tank also comes with special baffles, which are attached using a mechanical process known as clinching.

Why should you choose Magna for your fuel tank system?

Magna are experts in fuel tank systems and filler pipe technologies, regardless of whether they are plastic or metal. Magna also produces many of the components required to manufacture filler pipes, so we can find design solutions that provide optimum performance and the highest levels of safety.
