The Federal Investment Tax Credit, or ITC, is a federal tax program available to anyone installing a solar system before the end of 2023. It offers the ability to recoup up to 30% of the gross cost of an installed solar system for the final year in 2022, and often means considerable savings to average homeowners.

When compared to all other energy sources, PV solar consistently ranks as by far and away the cleanest. By most metrics, the carbon footprint of the solar panel production process is "net-zeroed" within two to three years. Incidentally after those same solar panels should produce energy from between 25 and 50 years.

Net-Metered, also commonly referred to as "Grid-Tied" Solar Systems work by taking the power you generate on your property, and both using it directly in your Landline: 0324021316 Cell: 09171338980 info@cebusolarpower Saac II, New Road, Lapu-Lapu City, 6015 Cebu
