

What does accept all MDU Resources Group do?

ACCEPT ALL MDU Resources Group provides essential products and services through its regulated energy delivery and construction services businesses.

Does Nauru have energy resources?

Nauru, like most Small Island Developing States (SIDS) in the Pacific region, has scarce local energy resources limited to solar energy and biomass and imports most of the energy consumed from abroad. To address this, the country has started the Supporting Mainstreamed Achievement of Roadmap Targets on Energy in Nauru project.

Is MDU (MDU) a good pick in a frothy market?

MDU also has the potential for higher growth due to its strong track record of earnings beats, which occurred in 6 of the past 8 quarters. As such, MDU could be a solid pick in this overall frothy market environment, in which catalysts coming from the data center segment could be a long-term growth driver.

Is MDU (MDU) a good long-term value play?

MDU also carries a 1.7% dividend yield that's well-covered by a 31% payout ratio. While MDU is no longer cheap, I believe it remains a good long-term value play at the current price of \$30.28 with a forward PE of 18.4. As shown below, this does sit above MDU's historical PE of 17.2.
