

What does the Montserrat Energy Department do?

To collaborate with various regional and international development partners to facilitate the implementation of Energy Efficiency, Energy Conservation and Renewable Energy programs and projects. The Montserrat Energy Department is launching the next phase of its Efficient Energy initiative by distributing 250 Plug-In Meter Readers.

Can Montserrat become a net energy exporter?

According to the Energy Task Force Report, "Montserrat has the potential to emerge as a net energy exporter through the aggressive development of its geothermal resources." A significant barrier highlighted in the 129-page document, is the lack of financing for project implementation.

What makes Montserrat a more prudent choice?

Chairman of the task force and Director of Energy for the Government of Montserrat, Kenrick Burke said, "We believe that a more prudent choice for Montserrat is an aggressive and multi-faceted strategy of diversification and development of the most feasible indigenous energy resources."

How much does electricity cost in Montserrat?

Montserrat's utility rates start at \$0.53 per kilowatt-hour (kWh) for residential customers, which is above the Caribbean regional average of \$0.33/kWh. Like many island nations, Montserrat is almost entirely dependent on imported fossil fuels, leaving it vulnerable to global oil price fluctuations that directly impact the cost of electricity.

Should Montserrat choose two energy futures?

"Montserrat must choose between two energy futures. Currently, imported fossil fuels provide 99.4 percent of Montserrat's energy needs.

Is Montserrat ready to compete in a globalised market?

MCWLE Minister Dr. the Honourable Samuel Joseph said "Montserrat's future is highly dependent on its ability to compete in a globalised market. Our energy security and independence are crucial to us meeting this objective.

The Power to Change: The Montserrat Energy Policy 2016-2030 [3] National Energy Policy None Renewable Energy (RE) Policy Population Census/ Projection GDP (USD) GDP (USD) Per Capita Debt as % of GDP Human Development Index RE Target 4,433 [1] National Climate Change Policy for Montserrat (Draft) (2011) [5] 8.66% [4]

Y lo último que se sabe es que allí, en las montañas, vivían tribus prehistóricas. Una excavación arqueológica en la Cueva Grande de la localidad de Collbató; (Barcelona), en el Parque Natural de la Montaña de Montserrat, ha permitido descubrir

niveles de ocupación del Neolítico antiguo.
