

Does Morocco need a solar power station?

Morocco plans to generate 42% of its energy from renewables by 2020, rising to 52% by 2030, with solar, wind and hydropower each providing a third of the total. The new Ouarzazate Solar Power Station will help Morocco meet its renewable power targets. Image: Solar Business Hub The country is well on its way to achieving that goal.

What is Morocco's largest solar energy project?

Morocco has launched one of the world's largest solar energy projects costing an estimated \$9 billion. The aim of the project was to create 2,000 megawatts of solar generation capacity by 2020. The Moroccan Agency for Solar Energy (MASEN), a public-private venture, was established to lead the project.

Why is Morocco a major market for solar panels?

Morocco enjoys over 3,000 hours of sunlight each year, making it one of the sunniest countries on the planet. These are the key drivers of Morocco's rising solar energy demand and make it a major market for developers and manufacturers of solar panels. Morocco has large solar energy potential.
