

How will electricity be sold in Mozambique?

Electricity will be sold through a 25-year power purchase agreement with EDM. The \$32 million project will contribute to the Mozambique government's 'Energy for All' strategy, aiming to have universal energy access by 2030. Have you read?

Can Mozambique take full advantage of its solar potential?

In a new monthly column for <b>pv magazine</b>, SolarPower Europe describes how Mozambique may take full advantage of its huge solar potential by implementing its recently launched Renewable Energy Auctions Programme for large-scale projects, while also pushing for more off-grid renewables in remote areas.

What is the market for off-grid solar in Mozambique?

The total estimated addressable market for off-grid solar is currently 173 MW, and is expected to grow in line with the growth of the aforementioned sectors. Recent energy policy reforms are also changing the game for off-grid renewables in Mozambique.

Will Mozambique achieve universal energy access by 2030?

By 2030, the Government of Mozambique hope to transform this landscape, and achieve universal energy access by the end of the decade. This would require capacity to more than double to almost 6,500 MW. Solar is undeniably the most intuitive renewable technology when it comes to off-grid energy solutions.

What is Mozambique's 'energy for all' project?

The \$32 million project will contribute to the Mozambique government's 'Energy for All' strategy, aiming to have universal energy access by 2030. Have you read? The project is expected to receive \$19m of debt funding from the Emerging Africa Infrastructure Fund, which is a member of the Private Infrastructure Development Group (PIDG).

Who is the project EPC contractor for Mozambique?

Spanish company TSK has been appointed as project EPC contractor. Globeleq will oversee the construction of the eventual operation of the power plant, supported by Source Energia. Globeleq, Source Energia and EDM start construction on the first IPP in Mozambique to integrate utility-scale energy storage and solar.
