

How many GWh does zoolnasm produce a year?

The planned annual capacity of Zoolnasm's manufacturing facility includes 20 GWh of sodium-ion battery cells and 10 GWh of sodium-ion battery systems. Chinese sodium-ion battery startup Jiangsu Zoolnasm Energy Technology Co Ltd has begun construction of its first battery manufacturing site, marking an important event for the industry.

What is zoolnasm's first sodium-ion battery production base?

Zoolnasm's sodium-ion battery manufacturing base project in Guangde, Anhui province, officially began construction on November 19, the company announced yesterday. This is Zoolnasm's first sodium-ion battery mass production base and the world's first mass production base for polyanionic sodium iron sulfate sodium-ion batteries, it said.

Who is Jiangsu zoolnasm?

Chinese sodium-ion battery startup Jiangsu Zoolnasm Energy Technology Co Ltd has begun construction of its first battery manufacturing site, marking an important event for the industry. Zoolnasm's sodium-ion battery manufacturing base project in Guangde, Anhui province, officially began construction on November 19, the company announced yesterday.

Where is zoolnasm based?

Zoolnasm was founded in January 2021 and is located in Suzhou, Jiangsu province in eastern China. The company's scientist, Zhao Jianqing, has fifteen years of experience in sodium-ion battery research and development and holds a number of leading patents, according to its website.

Why did zoolnasm get two rounds of funding?

Zoolnasm has secured two rounds of funding in three months, proving the exclusive competitiveness of the company's core technology, said Xia Gang, the company's general manager, adding that the company will add talent to prepare for large-scale product delivery.

Sodium-ion battery startup Jiangsu Zoolnasm Energy Technology Co Ltd announced today that it has secured a new round of funding with Country Garden Venture Capital, the venture capital arm of Country Garden, as the ...

Zoolnasm, también conocida como Zhong Na Energy, aún no ha revelado un calendario para la fase 2. La empresa ha destinado 10.000 millones de yuanes (\$1.400 millones) para construir en una superficie de 600 acres con acceso al caudaloso río Yangtsé.
