

Will Burkina Faso build a nuclear power plant?

Burkina Faso's military leaders have signed a deal with Russia to build a nuclear power plant to increase electricity supplies. It is the junta's latest move to align itself with Russia after falling out with most of its Western partners. The junta has turned to Russia for economic and military support since it seized power last year.

What is a man 18v51/60ts power plant extension in Burkina Faso?

MAN Energy Solutions is supplying three MAN 18V51/60TS engines for a power plant extension in Burkina Faso. Located in Kossodo - a suburb of the capital city, Ouagadougou - the extension will feed a total of 55 megawatts (MW) of electrical power into the national grid, thus increasing the country's generation capacity by almost 20%.

What is the Nexus gold concession in Burkina Faso?

The Nexus flagship project in Burkina Faso is the Bouboulou Gold Concession, a 38.8 sq-km (3,800+hectares) advanced stage exploration project. Historic drilling by Roxgold Inc., and more recently by Nexus, has established no less than five mineralized zones with significant gold intercepts of both length and grade.

How does Burkina Faso get its electricity?

The deal is part of Burkina Faso's target to achieve 95% electricity access for urban areas and 50% for rural areas by 2030. Burkina Faso gets most of its electricity from biofuels like charcoal and wood while oil products account for one-third of the total energy supply, according to the International Energy Agency.

Who regulates electricity in Burkina?

The energy regulator is the Electricity Regulatory Authority (ARSE). The National Electricity Company of Burkina (SONABEL) is the main vertically-integrated electricity operator with a national monopoly on the generation and distribution of electricity in the urban centres.

Who controls the supply of petroleum products in Burkina Faso?

The Sociéte Nationale Burkinabe d'Hydrocarbures (SONABHY) controls the supply of petroleum products. It is a state-owned company supervised by the Ministry of Trade and the Ministry of Finance. The Bureau of Mines and Geology ensures quality control for retailed petroleum products (REEEP, undated). Burkina Faso has 10 km² of peat land (WEC, 2013).
