

Does Niue use solar energy?

Over the last 5 months the total integrated system has resulted in 28.6% of Niue's electricity coming from solar renewable sources, saving over 130,000 litres of diesel. Find out more about Vector Powersmart

How did the Niue solar project work?

Working on the existing solar plants to establish communication with the Niue Central Power Station. Installing 600kW of solar to increase the islands overall solar capacity to 1.1MW of solar generation. The solar array was installed well inland on high ground to avoid any potential damage from cyclones in the future.

Why should you choose bbox EDF solar home system?

With our Bbox EDF Solar Home System, we now have access to reliable light and the feeling of being in the city. We first started as Bbox EDF customers using a Solar Home System in Togo and this has helped us a lot in our daily lives. Bbox has provided light to my home. My family feels safe, and the children are happy now.

Why should you choose bbox solar power?

Bbox solar power is affordable and they made it very convenient for one to pay. With the solar pump I can work until the night if I need to without paying for electricity or fuel. With our Bbox EDF Solar Home System, we now have access to reliable light and the feeling of being in the city.

How many solar home systems does bbox have?

So far, Bbox has deployed more than 350,000 solar home systems. Bbox has over 800 staff across nine offices including in Democratic Republic of Congo, Kenya, Rwanda, and Togo, with its head office in the UK and its manufacturing operations in China.

What is bPower50 solar home system?

bPower50 is a versatile 'Plug and Play' Solar Home System, designed for the rural off-grid customers typically using candles and kerosene lamps. Once connected, the system is ready to power lights, radios and TVs as well as charge phones for households and micro-businesses.
