

Where is the Northvolt Drei EV battery plant?

The Northvolt Drei EV battery plant in Heide, Germany, one of several European-led battery facilities to have been delayed or canceled. Europe's bid to build a homegrown battery industry to break China's dominance in electric vehicles is failing.

What is Northvolt Drei?

Peter Carlsson, Co-Founder and CEO of Northvolt, comments: "We're excited to announce Northvolt Drei - a project which fits well into a promising future cluster of clean technology ventures emerging in northern Germany and advances the wider European transition towards a sustainable society within which Germany plays a crucial role."

Will Northvolt Drei produce a high-performance lithium-ion battery in 2025?

Envisioned to produce its first batteries in 2025 and provide some 3,000 new jobs, a central intention of Northvolt Drei is to deliver high-performance lithium-ion batteries, produced with the lowest environmental footprint in continental Europe. The selection of Heide, Schleswig-Holstein, is key to fulfilment of this objective.

What's it like working at Northvolt Drei?

Nadia: Working on construction at Northvolt is truly exhilarating. We're on a multi-billion Euro project at Northvolt Drei, and it's incredibly rewarding. While it's complex, we have an optimized master plan neatly divided into manageable stages. But here's the thing that sets us apart - our team is something else.

Who is behind the Northvolt Drei Gigafactory?

The ground-breaking ceremony for the Northvolt Drei gigafactory was joined by German Chancellor Olaf Scholz, Vice Chancellor Robert Habeck, Minister-President of Schleswig-Holstein Daniel Guenter, Northvolt CEO Peter Carlsson and Northvolt Drei CEO Christofer Haux. "Germany was, is, and will remain a country with a strong manufacturing base.

How will Northvolt Drei's EV factory work?

The factory will be located at an industrial site outside of Heide on land spanning 110 hectares (271.8 acres). It will manufacture batteries for about one million EVs each year, relying on the region's onshore and offshore wind farms for electricity. Northvolt Drei expect the factory to create jobs for around 3,000 people.

Das norddeutsche Werk „Northvolt Drei“ soll nun auf dem Gebiet der beiden Gemeinden Norderwöhrden und Lohe-Rickelshof unweit von Heide entstehen.
