

Does Octopus offer a solar installation?

Thank you for your understanding. Octopus is offering £1,000 off a solar installation installed by them; the initial estimation I received is surprisingly low. For £10,000 (0% VAT) they are including: A Giv-Energy 5.2kWh Battery (!) I have not compared prices yet, but what has been other people's experience been of Octopus's solar installations?

How does Octopus Energy work?

Power your home with 100% renewable energy on this Octopus Energy electricity tariff designed exclusively for solar and battery owners. How does it work? Octopus Flux is an import and export tariff optimised to give you the best rates for consuming and selling your energy and support the grid during peak periods.

How do I sign up for Octopus Energy?

Signing up is easy! Once you're an Octopus Energy customer, download our app and log in. Under the "Explore our lab" section, you'll see a tile to connect to GridBoost. From there, follow the steps and log in with your battery log in and then... you're done!

Does the Tesla Powerwall work with Octopus Energy?

The newest edition of the Tesla Powerwall is now available for installation with Octopus Energy. Just like our standard battery options, it pairs seamlessly with your PV panels to store energy when the sun shines, whilst boasting premium features that could provide greater longevity.

When should I charge my octopus battery?

Generally, we'd recommend to charge your battery between 02:00 to 05:00 each night and to discharge between 16:00 to 19:00 when it'll be more expensive to import energy. If you want us to control your battery for you (and you have a compatible battery), check out Intelligent Octopus Flux.

Does Octopus offer grid boost?

The program is available to both new and existing customers! Customers will need to be on an Octopus retail plan to take part, and have a connected battery. Existing customers will not need to switch off their current plan. What batteries are currently eligible for GridBoost?

Octopus is offering £1,000 off a solar installation installed by them; the initial estimation I received is surprisingly low. For £10,000 (0% VAT) they are including: 9x JA Solar 435w panels; A Giv-Energy 5.2kWh Battery (!) A Giv-Energy Hybrid Inverter; Installation on a Single Aspect roof; Bird-Netting as standard

Yes, we can design and install a solar system for you, starting from just £3,880 for two panels. For more information, visit our solar page. You can save over 90% on electricity bills with solar & battery power.
