

Who is Olam energy?

OLAM ENERGY S.A. DE C.V., is a company dedicated to supporting services for petroleum industry, committed to high quality standards and innovation in its products and services, providing adequate attention to stakeholders, understanding their needs and expectations.

How can Olam help reduce environmental impacts?

We are active in a number of sector-wide initiatives and are collaborating with customers to help them mitigate their environmental impacts. Olam and sector programmes to build smallholder farmer resilience through: On a tropical mountainside in Mexico, farmers are planting new coffee saplings and forest trees.

What type of energy is used in Haiti?

Renewable energy here is the sum of hydropower, wind, solar, geothermal, modern biomass and wave and tidal energy. Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important energy source in lower-income settings. Haiti: How much of the country's energy comes from nuclear power?

How can Haiti improve energy resilience?

In the face of these obstacles, Haiti is forging a path toward energy resilience with support from USAID and the National Renewable Energy Laboratory (NREL). Central to this effort is the development of energy modeling frameworks and trainings, microgrids, agrivoltaics, and off-grid solar power to enhance energy resilience and security in Haiti.

How can Olam reforestation help smallholder farmers?

Olam and sector programmes to build smallholder farmer resilience through: On a tropical mountainside in Mexico, farmers are planting new coffee saplings and forest trees. Find out how this reforestation project conserves biodiversity and provides sustainable livelihoods.

Will USAID and NREL reshape Haiti's energy landscape?

In a bid to reshape Haiti's energy landscape, USAID and NREL will support Haiti's ministries and government in formulating the country's Integrated Resource and Resilience plan, which is a comprehensive energy sector master plan that envisions a sustainable, secure, and resilient energy future for Haiti.

This energy powers our wood operations and nearby homes in the town of Pokola, ensuring energy security. Additionally, excess steam generated is utilised in kilns for kiln-dried lumber, saving over four million litres of diesel annually. These initiatives help ensure resource efficiency and contribute to sustainable energy practices.
