

What is Portugal doing to reduce energy consumption?

Portugal is taking firm steps to reduce energy consumption, use its resources more efficiently, provide more sustainable mobility, achieve greater security of supply, and diversify its renewable energy footprint. Energy Solutions is one of the areas where Portugal stood out at HANNOVER MESSE '22.

How can Portugal meet growing energy demands in a sustainable way?

Meanwhile, the rapid expansion of hydroelectric and solar energy capacity is helping Portugal meet growing energy demands in a sustainable way. These efforts align with European Union objectives, such as the RePowerEU plan and the Renewable Energy Directive, which targets 42.5% renewable energy in total consumption by 2030.

Does Portugal have a high rate of green energy consumption?

Portugal boasts one of the highest rates of green energy consumption in Europe. From 30 May to 2 June at HANNOVER MESSE '22, companies from Partner Country Portugal showcased their technological solutions for clean-energy production and demonstrate to the global market Portugal's vast know-how and experience in the renewable electricity sector.

How much energy does Portugal generate from renewables?

Portugal generated an 'historic' 95 per cent of its electricity from renewables in April, according to the network operator REN. Renewable energy generation averaged just below that for the first four months of the year, covering 91 per cent of the nation's power needs.

Why is Portugal moving to a cleaner energy source?

This milestone also aligns with the country's broader energy transition goals, which began decades ago and saw a major turning point in 2021, when Portugal became one of the first European nations to cease coal-powered electricity production. This shift towards cleaner energy sources has not only benefitted the environment but also the economy.

Is Portugal a good renewable leader?

Portugal had the third highest share of wind energy in its electricity mix last year at 29 per cent, behind Ireland (36 per cent) and Denmark (58 per cent). But, as elsewhere, it's no good a renewable leader resting on its laurels.

Danos said Feb. 13 it had reached a "tentative agreement" to acquire the assets and business of Shamrock Energy Solutions, a privately-held, 22-year-old oilfield service company. The company added it will retain Shamrock's team of over ...
