PRM Energy Systems, Inc. is the developer and owner of the PRME Biomass Gasification Technology. Our systems are successfully operating in high demand industrial applications on ...

PRM Energy Systems, Inc. ("PRM"), licensed certain gasification technology patents to Primenergy, L.L.C. ("Primenergy"). Through a network of agreements (the "1999 Agreements"), PRM licensed Primenergy to use the gasification technology and enter into sublicense agreements in a number of countries. After a series of disputes between ...

PRM Energy Inc.'s Naturally(TM) produced biogas will come from biomass -- not fossil fuels. Technically speaking, you will be "co-firing" gas produced by the th...

Find step-by-step Economics solutions and your answer to the following textbook question: PRM Energy Systems owned patents licensed to Primenergy to use in the United States. Their contract stated that "all disputes" would be settled by arbitration. Kobe Steel of Japan was interested in using the technology represented by PRM's patents.

Wood to Energy 120 MW in module units. Typical applications include boilers and steam systems, furnaces and process heat systems, rotary dryers, kilns, thermal oil systems, steam turbines, ...

Energy Production: Energy companies use PRM system solutions to manage relationships with distributors and installation contractors, particularly in the renewable energy sector. These systems provide partners access to technical documentation, compliance resources, and training modules to ensure successful installations.

Hayward HRS Series Actuators Hayward's HRS Series Battery Backup electric actuators are designed and

produced to provide years of service in demanding industrial environments. The integral battery backup system manages battery charge/discharge cycles to provide safe and reliable reserve power in the event of mains power failure. These quarter-turn units drive ...

BioNitrogen Corp., a clean-tech company that utilizes proprietary technology to build environmentally friendly plants that convert biomass into urea fertilizer, has signed a three-year, nonexclusive agreement with PRM Energy Systems, Inc. (PRME) to build gasification units for its urea plants.. The first of the company's plants will be built in Hardee County, FL, as ...

Question: PRM Energy Systems owned patents licensed to Primenergy to use in the United States. Their contract stated that "all disputes" would be settled by arbitration. Kobe Steel of Japan was interested in using the technology represented by PRM's patents. Primenergy agreed to let Kobe use the technology in Japan without telling PRM.

The importance of this study is to highlight the success of commercial small-scale gasification systems, utilising their specific economic advantages over larger scale projects, ...

PRM Energy Systems, Inc. is the developer and owner of the PRME KC-Reactor Gasification Technology. PRME has gasified more biomass than all other gasification technologies combined.

This is clearly not the situation discussed in *Ross v. American Express Co.*, 547 F.3d 137, 148 (2d Cir. 2008), one of the principal cases relied upon by the court. Nor does PRM allege the sort of interdependent and concerted misconduct discussed in *Donaldson* sufficient to place the claims within the scope of the arbitration clause. *Donaldson Co., Inc. v. Burroughs* ...

PRM Energy Systems, Inc. is the developer and owner of the PRME Biomass Gasification Technology. PRME has gasified more biomass than all other gasification technologies combined. Our systems are successfully operating in high demand industrial applications on five continents converting over 10.0 million tons of biomass and other waste fuels to ...
